PART I

GENERAL

Proceedings of the Government of Mysore,

READ THE FOLLOWING COMMUNICATIONS—

Letter No. 1533—78, dated 15th August 1900, from the Inspector General of Education in Mysore, requesting to be informed if the Pandits of the Shimoga College and some High Schools who attended the Royal marriages at Mysore are entitled to travelling allowances and if so, to instruct the Comptroller to pass their bills.

2. Letter No. 1459—72, dated 13th August 1900, from the same Officer, reporting that on the authority of Article 532 (c) of the Mysore Service Regulations the Comptroller objects to pass the travelling allowance bill of Naranabhatta, Assistant Master, Hobli Kanarese School at Nuggehalli in the Channarayapatna taluk, who proceeded in his official capacity to give evidence in the Magistrate's Court at Hassan, on the 29th March 1900, and in the Sub-Division Magistrate's Court at Saklespur on the 18th June 1900; and requesting that the bill be passed and that a general rule entitling schoolmasters to travelling allowances in similar cases be laid down for future guidance.

3. Also subsequent correspondence on the same subject:—

(1) Letter No. 3354—109, dated 10th December 1900, from the Comptroller to the Government of Mysore.

With reference to your letter No. 5249—P. & A. 554, dated 13th October 1900, enquiring when and why the order embodied in clause (c) of Article 532 of the Mysore Service Regulations, regarding travelling allowance to schoolmasters, was passed, I have the honor to state that no definite information is available in this office on the point, but the rules contained in the late Chief Commissioner's Notification No. 132, dated 26th November 1880, under which travelling allowances were audited before the publication of the Travelling Allowance Code, did not prescribe the rates of travelling allowance to schoolmasters, as there was evidently no occasion for these officers to travel. However, in the same notification, provision was made to the effect that officers of all grades when entitled to travel at the public expense in joining an appointment, could draw mileage.

The same order appears to have been embodied in Schedule A of the Old Travelling Allowance Code, upon which the Article 532, clause (c), of the Mysore Service Regulations has been based. In connection with this subject, I may add that in G. O. No. 3481-82—P. & A. 406, dated 4th September 1900, scale of travelling allowances for officers of the Scholastic Branch of the Educational Department has been prescribed, and that the Article 532 (c) referred to above has to be altered with reference thereto.

(2) Docket No. 8828—385, dated 8th April 1901, from the Inspector General of Education in Mysore.

With reference to his docket No. 10270 of the 12th February 1901, has the honor to inform that there are no papers in the records of this office showing the circumstances under which the ruling contained in Article 532 of the Mysore Service Regulations was passed by Government.

No. 131-32—P. & A. 2, DATED BANGALORE, 3RD JULY 1901.

ORDER THEREON—Government are pleased to direct that clause (c) of Article 532 of the Mysore Service Regulations be omitted and the succeeding clause (d) styled Clause (c) and that the following addition be made to the revised scale of travelling allowances for officers of the Scholastic Branch of the Education Department, laid down in Government Order No. 3481-82—P. & A. 406, dated 4th September 1900:—

Class of officers.	Daily allowance.	Mileage.	Railway fare.
Class D on Rs. 30 to 50	$\frac{1}{30}$ths of the pay ...	Annas 4 ...	Double 2nd class.
Other members of the tutorial staff on pay not less than Rs. 30.	Do ...	Do ...	Do.
Ditto (including teachers employed in Government Schools of all kinds) on pay less than Rs. 30.	Do ...	Annas 2 ...	Double 3rd class.

and that the scale thus modified be embodied in the Mysore Service Regulations in the proper place.

2. The claim of the Pandits referred to in the first of the letters read above will be disposed of accordingly.

3. The bill received with the second of the letters read above, in favor of Naranabhatta, will be transmitted to the Comptroller for audit in accordance with the above scale.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—The Inspector General of Education in Mysore.
The Comptroller to the Government of Mysore, with the bill.

Government Order No. 66-69—D, dated 21st October 1900, sanctioning an advance of Rs. 1,000 applied for by the Deputy Commissioner of the Mysore district, for affording gratuitous relief to such of the Kurubars about Kakenkote as might be found unable to work.

READ—

Letter No. 1103, dated 6th March 1901, from the Deputy Commissioner of the Mysore district, submitting copy of a report made by the Assistant Conservator of Forests of the Heggaddevankote Range on the gratuitous relief afforded to some of the Kurubars in the Heggaddevankote taluk, that were reported to be in need of relief.

READ AGAIN—

Government Proceedings No. 15557-58—Mis. 3945, dated 21st May 1901.

No. 1545-9—MIS. 302, DATED BANGALORE, 26TH JULY 1901.

ORDER THEREON—The circumstances under which Government sanctioned relief to the Kurubars were fully explained in their Proceedings read above. Out of the sum of Rs. 1,000 thereby sanctioned for the purpose, the Deputy Commissioner of Mysore placed Rs. 200 in the hands of Mr. Venkatanaranappa, Assistant Conservator, who spent a sum of Rs. 159-15-6 in supplying the aged and the infirm chiefly by distribution *gratis* of ragi, chillies and salt.

2. The Assistant Conservator of Forests has embodied in his report the results of a general census of the Kurubars, which he took while engaged in this work, with a description of their habits and mode of life and a brief resume of it here would be interesting. He groups the Kurubars living in the Kakenkote and Begur State Forests and in the District Forests adjoining the Ainur Manigudi and Mettukappa State Forests into two classes: (i) the Jainu Kurubars and (ii) the Betta Kurubars. Both are forest tribes but very quiet and inoffensive in their nature. Their dress is of a very primitive style and they are very simple and innocent in their method of living. They are content with what they get in the forests for their maintenance. They are an indolent class of people, and their only occupation is *kumri* cultivation, though some of them have lately taken to timber-felling, and a few more have been found to till their own ragi fields. While the two classes resemble one

another in all these respects, a distinction is yet marked between them in their general appearance, dress, physique and habits. The Jainu Kurubars are poor in physique though capable of considerable endurance. They are very timid, and it is said that the sight of a stranger is enough to scare them away from their *hadies.* They are mostly nomadic in their habits. The Betta Kurubars, on the other hand, are strong and sturdy in stature, fixed in their habitations and more industrious than the other class. The two tribes do not mix with each other; nor do they intermarry. But they speak the same dialect, which is a mixture of corrupt dialects of Kannada and Tamil.

3. There are 36 *hadies* or hamlets inhabited by these tribes, and they contain 261 huts. The total number of the people is 922 consisting of 265 men, 287 women, 156 boys, 165 girls and 49 infants. Regarding the health of the Kurubars as it stood when they were observed by the Assistant Conservator, the latter gathers that only 22 were in an unhealthy condition. Those that were aged and infirm numbered only 37, and the blind, crippled and insane only 3. The Assistant Conservator gives two statements showing the number of those that were in a condition to work and of those among them that were actually inclined to work, thus attempting to bring out by figures the marked indolence of the tribes.

4. The report, a resume of which is given above, is recorded.

Proceedings of the Government of Mysore,

READ—

Correspondence ending with letter No. D. 1769, dated 7th June 1901, from the Deputy Commissioner, Bangalore district, *in re* a proposal made by Mr. Doddanna, a merchant, Bangalore, to found a charitable institution, *viz.*, an Anglo-Vernacular School open to all classes in the Bangalore City.

No. 179-181—ED. 5, DATED BANGALORE, 4TH JULY 1901.

ORDER THEREON—Mr. Doddanna has deposited a sum of Rs. 14,000 in the Mysore Government Savings Bank at Bangalore for the purpose referred to in the above. To this he is also willing to add a sum of Rs. 10,000, being the amount of his Policy No. 3097485 in the New York Life Insurance Company, when that amount becomes payable.

2. He requests that the money, Rs. 14,000, in the Savings Bank be accepted by Government at such rate of interest as is allowable by Government Savings Bank in such cases, and that he be permitted to assign his New York Life Insurance Policy for Rs. 10,000 to the Deputy Commissioner for the time being, he (Mr. Doddanna) undertaking to pay the premia during his life-time.

3. With a view to provide accommodation for the proposed school, Mr. Doddanna offers to make a free gift of a site in the Ganigarpete, which he bought for the purpose, and undertakes to pay the cost of acquiring the surrounding vacant site necessary for a compound. It is proposed that out of Rs. 14,000 a sum of Rs. 4,000 be spent upon the construction of a building on the sites referred to above, and that the balance be held in trust by Government, the interest accruing thereon being permanently utilized towards the maintenance of the Anglo-Vernacular School to be founded. Should any portion of the nterest remain unspent, it is proposed to spend it in granting scholarships to enable Mysore students to continue their studies for the M. A. Degree Examination. The standard of instruction and other details as to the management of the school are proposed to be reserved for further consideration.

4. In these circumstances Government are pleased to accept with thanks the investment of Rs. 24,000 as shown in the margin from Mr. Doddanna, and the account No. 3951 relating thereto in the Savings Bank, Bangalore District Treasury, will accordingly be transferred in favor of the Comptroller, who is requested to keep a regular account of all the transactions connected therewith. When the school is formally opened, the interest will be drawn at such periods as are allowable for meeting the establishment charges thereof.

Rs.	
14,000	Cash in Government Savings Bank.
10,000	Assignment of Policy No. 3097485 in the New York Life Insurance, the amount to be realized when the Policy matures, till when the premia should be paid by the donor himself.

5. The Inspector General of Education and the President of the Bangalore City Municipality will be requested to favor Government with their views as to the standard of instruction and other details of management of the proposed school.

6. A sketch of the ground bought by Mr. Doddanna in the Ganigarpete should be forwarded to Government. He should also be requested to make the purchase of the adjoining ground as proposed by him for providing a compound for the school. A further report should be sent up on the matter, the cost of the two sites thus used for the school being also mentioned.

Letter No. 11495—514, dated 20th June 1901, from the Inspector General of Education in Mysore.

In continuation of my letter No. 11135—500, dated the 16th instant, submitting a statement of new monthly grants applied for, and with reference to the recommendation of a monthly grant of Rs. 100 in aid of the Methodist Episcopal Mission Industrial School, Kolar, I have the honor to invite your attention to my letter No. 2490—83, dated 16th September 1898, with its enclosure which was an application from Revd. W. W. Hollister, bearing Register No. 2034—551 of this office, and to Government Order No. 2888—Ed. 115, dated 23rd August 1900, upon the above letter.

2. I beg to forward herewith (1) the Kolar Deputy Inspector's Report No. 1492, dated 4th April 1901, on the Industrial School, (2) Mr. Hollister's application for a monthly grant of Rs. 110, dated 23rd March 1901, and (3) Mr. Hollister's explanatory statement accompanying the application.

3. I recommend that a monthly grant of Rs. 100 may be sanctioned either from the Local Funds General or the State Funds for the Industrial School on the following conditions :—

(1) That the school be opened to boys of all creeds and races.
(2) That free-hand drawing be taught at least to all pupils not belonging to the Orphanage.
(3) That Rs. 25 be spent monthly on scholarships of small amounts according to qualifications, payable to pupils not belonging to the Orphanage. The amount not spent on scholarships will not be drawn.
(4) That Rs. 75 a month be given as a monthly grant towards the cost of instruction in the Industrial School.

No. 953-4—Ed. 27, DATED BANGALORE, 19TH JULY 1901.

ORDER THEREON—Under the circumstances represented in the letter read above, Government are pleased to sanction a grant of Rs. 100 per mensem in aid of the Mission Industrial School at Kolar, tentatively for one year and subject to the conditions laid down by the Inspector General.

2. A sum of Rs. 1,000 is included in the State Fund budget estimates of the Education Department for 1901-1902, to meet the charges sanctioned above. The full provision of Rs. 1,200 will be included by the Inspector General in the budget estimates for the next year. If more than the sum of Rs. 1,000 provided be required this year, the excess may be met out of general savings.

Letter No. 11134—499, dated 10th June 1901, from the Inspector General of Education in Mysore :—

"I have the honor to forward herewith a tabular statement of building and other lump-sum grants applied for this year. I have shown the amounts recommended by me in the last column of the statement. The usual rule is to allow half the cost of Panchama and Girls' Schools and one-third of the cost of ordinary Boys' Schools. The total amount of Rs. 8,745 includes a sum of Rs. 6,100 which was sanctioned in the budget of 1900-1901 and has remained unutilized during the current official year. This amount will be required for expenditure during the next year and, therefore, it has been re-provided in the enclosed list. I request that Government may be pleased to sanction the total amount of Rs. 8,745 required for the grants recommended in the last column of the accompanying statement and order the provision to be entered in the budget of 1901-1902."

No. 1031-32—Ed. F. 26-96, DATED BANGALORE, 20TH JULY 1901.

ORDER THEREON—The amount required for awarding building grants during the year 1901-02 is estimated at Rs. 8,745 as per details in the statement attached. A sum of Rs. 5,000, the normal provision, being available for this purpose in the State Fund budget estimates submitted by the Inspector General for 1901-02, the extra amount of Rs. 3,745 is sanctioned and the same will be included in the budget.

Letter No. 11967—196, dated 8th June 1901, from the Inspector General of Education in Mysore, submitting, for the orders of Government, a list of building works requiring appropriations during the year 1901-1902 from the State Funds.

No. 1169-70—Ed. F. 19-96, DATED BANGALORE, 23RD JULY 1901.

ORDER THEREON—In the State Fund budget estimates of the Education Department for 1901-1902, submitted by the Inspector General of Education in April last, the usual provision of Rs. 10,000 was made for "Taluk School buildings." The appropriations that would be required during 1901-1902 on account of new buildings are estimated at Rs. 33,862 as shown in the statement received with the letter read above. The actual amount of appropriations required for incomplete works not being readily ascertainable, an approximate sum of Rs. 12,500 has been put down by the Inspector General on account of such works. Adding the cost of minor works to the above, the total amount required comes up to Rs. 54,362.

2. Government are not prepared to take up in one year all the new buildings mentioned in the list submitted by the Inspector General. The Inspector General should, after proper scrutiny, select only the more pressing ones among them, for being constructed this year. In addition to the normal provision of Rs. 10,000 a sum of Rs. 15,000, is sanctioned, and this will be included in the State Fund budget estimates for 1901-1902. A list of the new works proposed to be taken up during the year and a statement showing appropriations for incomplete works, should be submitted for the orders of Government. The total grant of Rs. 25,000 sanctioned as above should not be exceeded.

To—The Inspector General of Education in Mysore.
The Comptroller to the Government of Mysore.

No. 1239-40—Ed. 46, DATED BANGALORE, 24TH JULY 1901.

ORDER—It is observed that there is no regular scale of pay fixed for the Lady Teachers employed in Government Girls' Schools. In many cases the salaries allowed are more liberal than either the present state of education among women or the value of the services rendered seems to require or justify. The following revised scale has been drawn up in consultation with the Inspector General of Education, and as it seems to be quite suitable in all respects, and to afford reasonable inducements for those likely to compete for such places, its adoption is ordered in respect of all appointments hereafter to be made in the Education Department.

2. For candidates with qualifications in the 1st column the pay shown in the 2nd column for the corresponding class, will be awarded as the starting pay. Promotion thenceforth will depend either on their acquiring superior qualifications or on satisfactory work after a reasonable period of service and existence of vacancies in higher ranks :—

Qualification.	Pay.
The Lower Secondary Examination ..	Rs. 20 per mensem.
The Lower Secondary Examination and the Teachers' Certificate Examination.	Rs. 25 per mensem.
The Upper Secondary Examination .	Rs. 30 per mensem.

Letter No. 9151-2—405, dated 20th April 1901, from the Inspector General of Education in Mysore, submitting the State Fund budget estimates of the Education Department for the year 1901-1902, with an explanatory memo.

No. 1276-77—ED. F. 2-96, DATED BANGALORE, 24TH JULY 1901.

ORDER THEREON—The budget estimates of the Education Department as submitted by the Inspector General of Education with the letter read above were as follows :—

	Sanctioned estimates for 1900-1901.	Proposed estimates for 1901-1902.	Difference	
			Decrease	Increase.
	Rs	Rs	Rs.	Rs.
Receipts	94,367	95,867	...	1,500
Expenditure	7,12,405	6,98,613	13,792	...

2. *Receipts.*—The total estimated receipts are Rs. 95,867, which are Rs. 1,500 more than what they were for 1900-1901. The figures under the several items of receipts, wherever they show fluctuations, are based upon the actuals for the last two years, and are accepted.

3. *Expenditure.*—(*a*) The amount of Rs. 6,98,613, estimated by the Inspector General under 'Expenditure', includes Rs. 2,400, on account of Dr. M. Srinivasa Rao's allowance as Lecturer in the Central College, Bangalore. This allowance having been taken into account in the salary of Dr. Srinivasa Rao, which has been separately provided for under Medical, the Inspector General's estimates will be reduced to Rs. 6,96,213, which provides for all sanctioned charges.

(*b*). To this amount the following will be added :—

(i). Rs. 29,662, the provision required on account of various proposals separately received and sanctioned by Government. This includes Rs. 1,896, the establishment charges of the Central College Students' Hostel. (*vide* Statement A appended for details).

(ii). Rs. 4,350, on account of exchange compensation allowance added by the Comptroller.

Thus the total amount under 'Expenditure' sanctioned for the year 1901-1902 is Rs. 7,30,225, which exceeds that of the past year by Rs. 17,820.

4. With the above remarks the State Fund budget estimates of the Education Department for the year 1901-1902 are sanctioned. The detailed statements are given in the appendix, the following abstract showing the results under each head .—

LEGISLATIVE

Proceedings of the Government of Mysore,

READ THE FOLLOWING PAPERS—

Order No. 7578—Legis. 62, dated the 30th November 1900, directing the Compiler, *Mysore Gazette*, to publish in a separate part of the *Gazette* to be styled "Part III, Legislative Measures and Rules thereunder," all Legislative measures (including Draft Regulations) and all rules and notifications of a *general character* framed thereunder, with a view to their preservation separately for reference.

(2) Docket No. 1, dated the 2nd July 1901, from the Compiler, *Mysore Gazette*, submitting an explanation as to why certain notifications of a general character were published in Part I, instead of in Part III, and stating that to avoid errors, it would be advantageous if the Departments concerned named the part of the *Gazette* in which any notification should appear.

No. 507-12—LEGIS. 3, DATED BANGALORE, 12TH JULY 1901.

ORDER THEREON—In the case of every Rule or Notification of a *general character* framed under any enactment and sent for publication in the *Gazette*, the issuing Departments will indicate by a foot-note in the "Press copy" that the matter is to be printed in Part III of the *Gazette*.

2. Notifications relating to the investiture of particular individuals with powers, the acquisition of specified properties, the constitution of particular tracts as State Forests, the formation of Courts at particular places, &c., are *not*, as presumed by the Compiler, Notifications of a general character within the meaning of the Government Order of the 30th November 1900, and should therefore continue to be excluded from Part III of the *Gazette*.

LOCAL FUNDS

Proceedings of the Government of Mysore,

READ—

Letter No. 850, dated 6th March 1901, from the President of the Local Fund Boards, Mysore district, submitting the budget estimates of the District Fund of the French Rocks Circle for 1901-1902, together with a copy of the proceedings of 12th February 1901.

No. 15-27—L. F. 5-1901, DATED BANGALORE, 1ST JULY 1901.

ORDER THEREON—The income of the French Rocks Circle for 1901-1902 is estimated at Rs. 41,652, against Rs. 42,118, the actuals of 1899-1900, and Rs. 43,021, the sanctioned estimate for 1900-1901.

2. *Tolls.*—The omission of any estimate under "Tolls" against Rs. 4-1-4 realised during 1899-1900 from local cess on toll revenue, requires explanation. The names of toll-bars and the collections from which the local cess was credited during 1899-1900, should be specified and the reason why the toll revenue of such toll-bars was not credited during the year, should also be stated.

3. *Opening Balance.*—In lieu of Rs.—3,988 proposed under this head a sum of Rs.*—3,469 will be entered as the opening minus balance for 1901-1902.

(4) Estimated closing balance or balance on 1st July 1901 ...	—3,469

4. *A. Public Works to be executed by the of Public Works Department.*—Owing to the insufficiency of funds, the Board propose to transfer the marginally noted two roads to Provincial Funds and omit the usual provisions on their account, as also on account of a portion of the Lingaraja Chattar-Kalahalli road and of nine other District Fund roads. The Chief Engineer, who was consulted on the subject recommends that at least Rs. 12,825 required for the maintenance of the above two roads and also of the French Rocks Station-Nelligere road (Rs. 4,375) be given as a special case from Local Funds General as a temporary arrangement till such time as the Board is able to provide for them from District Funds, or till they can be transferred to Provincial Funds, which may be possible after the present financial pressure is over; and states that the Board should provide annual allotments for all the other District Fund roads in the Circle. Pending the issue of separate orders on the proposed grant from Local Funds General or the transfer of the roads to Provincial Funds, the usual provisions (Rs. 8,450) for the maintenance of the two important roads, *viz.*, the Maddur-Sivasamudram and Seringapatam-Channarayapatna roads omitted in the budget will be entered. The proposal to make no provisions for the maintenance of certain other roads, will, however, be allowed, as the Board perhaps consider that these roads are able to stand without repairs for a year. If, in the course of the year, all or any of these roads require repairs, supplemental budget should be submitted for the same, if the necessary funds cannot be provided for by a re-appropriation of the sanctioned allotments. The President is, however, requested to state why the

5. *B. Public Works to be executed by the Revenue Department.*—The entire provision of Rs. 2,292 made under " I. Original works " on account of the construction of a lodge between Nagamangala and Krishnarajpete, which does not appear to be a work of very urgent nature, as also on account of the incomplete sanitary work at Kikkere, for which the Municipality should find funds to complete, will be struck out, corresponding reduction being made in the provision under " III. Establishments."

6. The other items call for no remarks and are passed.

7. The District Fund budget estimates of the French Rocks Circle for 1901-1902 are sanctioned as per details given in the accompanying appendices, of which an abstract is given below :—

		Rs.
(1)	Estimated income for 1901-1902	41,652
(2)	Opening balance	—3,469

(2) Government Proceedings No. 4149-53—L. F. 210-92, dated 23rd October 1895.

No. 1-14—L. F. 210-92, DATED BANGALORE, 1ST JULY 1901.

ORDER THEREON—Government regret to observe that though 31st January 1901 was fixed in the above Proceedings for the submission of the District Fund budgets for 1901-1902, not a single budget was received on or before that date, and some of them were received so late as April and May 1901, as will be seen from the following statement:—

No.	Budget.	Date of Receipt.	No. of days delayed (after due date)
1	Kadur	21st February 1901	21
2	Mysore	28th do	28
3	French Rocks	9th March 1901	37

8	Kolar	19th do	78
9	Hassan	22nd do	81
10	Bangalore	16th May 1901	105

The delay in the submission of these budgets is unsatisfactory and has delayed the passing of orders thereon and the issue of the Public Works Department budget, in which the District Fund budget estimates have to be incorporated. As it is absolutely necessary that these budgets should be issued in the first half of April every year, with a view to their being embodied in the Provincial Public Works Department budget, the Preliminary Issue of which has to be issued, under para 2 of the Proceedings No. 869-98—4824-53, dated 12th September 1895, not later than 1st May preceding the year budgetted for, the Presidents of District Fund Boards are requested to convene their meeting of January early in the month and to obtain the approval of the Boards to the budgets of the ensuing year, so as to admit of their being submitted to Government punctually before the end of that month. Government trust that the prescribed date will be scrupulously adhered to hereafter and will take serious notice of each case of delay.

2. Care should be taken to see that budget statements are prepared in the prescribed forms with all the required details under various heads, and that only such increases as have been previously sanctioned are entered in them, and that the sanctioning order is quoted in each case.

3. Instances have recently come to the notice of Government, that supplemental or revised budgets are submitted in the last month of the year, to which they relate in spite of clear instructions to the contrary. The attention of the Presidents is invited to Government Proceedings No. 1561-65—L. F. 259-96, dated 28th July 1898, and they are requested to see that these budgets are submitted at least three months before the close of the year to which they relate. They should also be prepared in prescribed forms and submitted to Government with full details.

4. The lists of incomplete works of previous years should be laid before the meeting of July, as required in para 3 of Proceedings No. 6098-6106—L. F. 210-92, dated 1st November 1892, and submitted to Government not later than the 31st of August of each year, and the authority sanctioning should be mentioned in each case.

No. 436-39—L. F. 171-93, DATED BANGALORE, 11TH JULY 1901.

ORDER THEREON—It is observed that by a better adjustment of the mileage allotments on the same lines of a road in the Maidan and Malnad portions, the financial difficulty experienced in the Hassan district may be got over; and this course must be pursued. As the reasons urged for the grant of relief to the District Boards are not based on any temporary grounds, no grant of any temporary relief or other make-shift can meet the case. The Government are not therefore prepared to sanction the Board's proposal.

2. The Government have no objection to the transfer of the Maddur-Sivasamudram road, which is growing in importance, from the District Funds of the French Rocks Circle to the Provincial Public Works Department budget. The Chief Engineer is requested to provide for it in the Public Works Department budget for 1901-1902. The Government do not see that there are special circumstances in the French Rocks Sub-Division to the transfer of the other road or to the additional grant proposed from Local Funds General. In this case also, the Board must reduce their mileage allotments all round and provide for the maintenance of the remaining roads in the Sub-Division.

3. The case of Kadur is, however, different. More funds are absolutely necessary for the efficient up-keep of all the roads. This can only be done by affording relief to the District Fund by transferring some of the important District Fund roads to the Provincial Public Works Department. What these roads should be must at once be decided by the Secretary in the Public Works Department in consultation with the local officers. The Government consider that the Public Works mileage allotments also may be reduced as far as possible, as probably the extended railway communication since the time when the allotments were originally fixed has reduced the traffic and the consequent wear and tear of the main lines of roads.

Paras 1, 5 and 6 of the Inspection Notes of the Mysore City of the 1st Councillor, dated 11th July 1901 :—

" 1. Before starting on my inspection this morning I had a discussion with the Health Officer, Vice-President and President. We decided that, as suggested by the Senior Surgeon, houses in the neighbourhood of those infected should also be disinfected. The inmates of the house might be removed to Viranna's Lines and their clothes disinfected in the steam boiler.

* * * * *

" 5. Thence went to Erangere. The President was advised to take up the Holeya houses near the Roman Catholic Chapel and remove the whole block. It would have been an easy task if the work had been taken up last year as advised by me. The inhabitants had camped out and were getting accustomed to live outside the town. Now they have all come back and may put a higher price on the houses than they did last year. But the Vice-President assures me that they can be persuaded to take the price settled last year. I think there should be no further delay in acquiring and removing this block as a whole.

" 6. The cost will not fall entirely on the Municipality. I have noted in the list appended how the cost is proposed to be recouped to an appreciable extent. The Vice-President has given a long list. I think all the improvements are necessary, but for immediate action I have selected four blocks and given them in the order of their importance. In all these the cost will be made good to some extent by re-sale of sites with a condition that they should be kept open or only such buildings should be put up as may be approved by Government."

No. 1285-88—L. B. (P.) 198-201, DATED BANGALORE, 25TH JULY 1901.

ORDER THEREON—Government agree that the houses in the neighbourhood of those infected should also be disinfected, the inmates of such houses being removed to Viranna's Lines and their clothes disinfected in the steam boiler. Apart from disinfection, all the houses in the affected locality must be thoroughly cleaned, whitewashed and, if possible, ventilated, one of the duties of the Chief Plague Officer and Health Officer being to impress upon the people the desirability of keeping themselves and their clothes scrupulously clean.

2. The approximate cost of removing the four blocks of houses referred to in the accompanying statement, amounting to Rs. 32,256, is sanctioned, the amount being debited provisionally to Plague Funds subject to future adjustment.

3. The President, City Municipality, Mysore, is requested to furnish information as to the number of houses which will be removed from the said blocks and the number of people who will be rendered homeless and will have to provide themselves with accommodation elsewhere.

4. Government consider it necessary that the people thus rendered homeless should be encouraged to build their houses in the extensions.

5. Government would also prefer not to allow any buildings to spring up on sites thus rendered vacant for some years more, and direct that no permission should be granted to build on such land without their previous sanction.

Correspondence ending with letter No. 673, dated the 11th April 1901, from the President, Mysore City Municipality, forwarding, with reference to para 1 of the Government Proceedings quoted above, a statement showing the extent of land required for the formation of the said extensions and the amount of compensation payable therefor.

No. 1808-10—L. B. (P.) 390-2, DATED BANGALORE, 29TH JULY 1901.

ORDER THEREON—It is observed from the statement referred to above that a sum of Rs. 9,231-7-0 has been settled as compensation for the *73 acres and 27 guntas of land proposed to be taken up for the extensions in the Mysore City and that out of this sum Rs. 8,447-15-0 have already been paid as compensation from funds allotted for other works. Such a procedure is unauthorized and highly irregular, as it is likely to create unnecessary confusion in the accounts.

No.	Name of extensions.	Acres.	Guntas.	Total Amount.

	Total ...	73	27	9,231 7 0

Government consider it desirable that a separate account should be maintained in connection with these extensions and the receipts and expenditure separately accounted for.

To meet this end Government are pleased to sanction a special allotment of Rs. 9,231-7-0, including the sum of Rs. 1,855 already paid out of Plague funds, for the adjustment of advances made from the marginally noted sources and for payment of compensation still due to the parties.

The whole amount will be recouped from the sale proceeds of building sites, for which separate accounts should be maintained and submitted to Government monthly.

The Chief Engineer in Mysore is requested to instruct the Executive Engineer, Mysore Division, to undertake the work of laying out the grounds for houses, &c., under the orders of the 1st Councillor, sanctions for expenditure on this account being obtained in the usual course.

RECEIPTS.

2. *House Tax.*—The increase under this head in the budget of Huliyar and decrease in the budgets of Maddagiri and Kyatsandra are based on the jamabandi figures. The estimates are passed.

3. *Fees from Slaughter House and VII. Rents (c) Markets.*—No explanation is furnished for the omission in the present budget of Tumkur of the estimate of Rs. 460 entered under "Slaughter-house fees" in 1900-1901, as also for the increase of the estimate under "Market rents" from Rs. 150 to Rs. 600, though probably the former item has been included in the latter. The President is requested to state if this is the case, and if so, the necessary transfers will have to be made under the two heads referred to.

4. *VII. Mohatarfa (a) Shop Tax.*—The cause of decrease under this head in the budget of Koratagere has not been explained. The omission should be, supplied. Meanwhile the estimate will stand.

5. *Opening Balance.*—In lieu of the figures proposed under this head against the marginally noted four Municipalities, the amount inserted by this office will be shown as the correct opening balances.

6. *II. Head Office.*—It should have been explained why the budget or Nonavinkere provides for an increase of Rs 3 over the sanctioned estimate fof 1900-1901 on account of the District office establishment. The omission should be supplied, pending which the provision will stand.

7. *III. Collection (b) House and Mohatarfa Taxes.*—No provision has been made in the budgets of Kunigal and Huliyurdurga on account of potgi or remuneration payable to the shanbhog and patel for the collection of house and mohatarfa taxes while the remaining budgets provide for the same at 5 per cent under Government Proceedings No. 12957-65—L. F. 295-96, dated 30th May 1900, for various periods as noted in the margin. The President is requested to submit a separate reference explaining the circumstances under which remuneration was not paid to the village servants for 2, 3 and 4 years and why the 2 per cent commission authorized in Government Proceedings No. 5954-63—L. F. 57-92, dated 31st October 1892, may not be allowed in respect of collections made in 1898-99 in Municipalities where mohatarfa was excluded in fixing the potgi. Pending the receipt of such reference and the issue of final orders thereon, the provisions will be allowed to stand but should not be utilized.

	Number of years ending with 1901-1902.
1. Bellavi	No year mentioned.
2. Gubbi, Kadaba and Honnavalli commencing from 1900-1901	... 2 years.
3. Tumkur, Koratagere, Holavanhalli and Kyatsandra for years commencing from 1899-1900	... 3 years.
Tiptur, Maddageri, Sira, Chiknayakanhalli, Turuvekere, Huliyar, Pavagada and Nonavinkere for years commencing from 1898-99 ..	... 4 years.

8. *IV. Conservancy.*—The Municipal Board of Bellavi propose the entertainment of a peon on Rs. 6 per mensem, with effect from 1st July 1901, and provide Rs. 72 for the same. The proposal is approved and the provision passed with the remark that the previous sanction of Government should have been obtained for making this provision.

9. *VI. Registration of Births and Deaths.*—As the Government declined to sanction the proposed employment of a daroga for the registration of births and deaths in the Tumkur Municipality, in Government Proceedings No. 4523-24—L. F. 54-99, dated 1st May 1901, the provision made in the budget of the town on account of his pay will be struck out.

10. *VIII. Public Works (a) Supervision.*—The correct amount that has to be entered under this head on account of supervision charges in the budget of

Holavanhalli is Rs. 10 and not Rs. 5 as proposed. The former figure will be adopted in the budget. Owing to insufficiency of funds, the provision of Rs. 100, made in the budget of Turuvekere on account of "Drains, original" will be struck out, corresponding reduction being made on account of supervision charges.

11. The other items call for no remarks and are passed.

12. The budget estimates of the several Municipalities in the Tumkur district for 1901-1902 are sanctioned as shown in the following abstract statement, of which details are given in the accompanying appendices.

Correspondence ending with letter No. 4170, dated the 7th September 1900, from the Chief Engineer, in regard to the stoppage of pumping works at Belagola.

Letter No. 179, dated the 12th September 1900, from the President of the Municipal Commission, Mysore City, suggesting that the management of the Belagola Water Works be handed over to the Municipality and that occasional inspection by an Engineer may be arranged for.

Letter No. 3502, dated 28th June 1901, from the Chief Engineer of Mysore :—

CONTROL OF DEVAROYA CHANNEL AND VANI VILAS WATER-SUPPLY.

With reference to letter No. 820 of 18th instant, to your address from the President, Mysore City Municipality, I have the honor to request early sanction to the following arrangements being made from the 1st July next, for the control of these works, pending the decision of Government on the larger questions referred to them for orders in the Joint Report on the working of the drainage and water-supply systems in the Mysore City, submitted with this office No. 2033, dated 10th April 1901 :—

(1) That the whole length of the Devaroy channel be handed over to the Deputy Commissioner, Mysore district, for maintenance, and that he also have complete control of the head sluice, and the supply of water to the turbine and for cultivation under this channel, the usual annual allotment for the channel being handed over to the Deputy Commissioner for its maintenance. Any special repairs, or improvements, or such works as may be necessary, and which cannot be met from the year's maintenance allotment, will be referred to the Superintending Engineer, Western Circle, for orders, who will make arrangements for carrying them out after proper investigation.

(2) That the whole of the turbine-house establishment (as recently revised in accordance with the Officiating Chief Engineer's orders) be handed over to the President of the Mysore Municipality, under whose orders they will work from 1st July 1901. Details of this establishment, &c., are given in the enclosed copy of the Deputy Chief Engineer's note of 5th instant. But questions involving changes in the establishment now fixed, or any matter concerning the machinery, be referred to the Chief Engineer for orders. All works, however, in connection with the erection of the new turbine and pump, the inlet and other works in connection therewith, will be completed by the Sanitary Superintending Engineer, and handed over to the Superintendent at the Pumping Station.

Supervisor Balakrishna Rao after the completion of the inlet and works in connection with new turbine will be transferred, if the Municipality have no more need of his services at Mysore.

(3) That the whole of the other works in connection with the water-supply to Mysore City, the rising main, and the reservoirs at Ontikoppal (with existing establishments) be handed over to the control of the Municipal President, who will for the present refer all proposals in connection with alterations or additions to the present system, as well as any technical questions which may arise, to the Superintending Engineer, Western Circle, for opinion before carrying them out.

2. The above arrangements will place all the works under one general management. The divided control hitherto in operation has not worked at all satisfactorily, and after careful consideration, I consider the proposed changes should be given effect to at once.

Deputy Chief Engineer's Note to the Chief Engineer, dated 5th June 1901, regarding proposed re-organization of the Belagola Pumping Station Staff and channel maintenance.

This pumping station was opened for the supply of water to the City of Mysore on the 17th April 1896.

2. The installation originally consisted of two turbines each geared to a three-throw force pump ; calculations by the makers showed that these two pumps would be ample for the supply of the City for many years to come, under the conditions such as fall to turbines, amount of water in channel and head to be pumped against, then laid down by our Engineers.

3. There can be no doubt that the failure of the pumps to work to anything like the makers' specification and the very frequent interruptions for renewals of parts, and repairs to pumps and turbines are wholly due to the following causes:—

1st, Faulty erection of the plant,

2nd, Unskilled superintendence since erection, and as the pumping staff did the repairs, these were as badly carried out as the superintendence.

4. A third turbine and pump has now been erected, and will commence operations shortly, and as this pump has been erected by a skilled mechanic, it is believed we will obtain double the supply from it that either of the old pumps (of similar design and size) can give.

As soon as the new pump is in operation, the two old ones will be taken out (one at a time) and thoroughly overhauled, repaired and re-erected.

5. As it is not a question of doubt that the failure of the two original pumps is due to bad supervision and repairs, I consider it would be a fatal error to retain the services of the present Superintendent, and I therefore propose to re-cast the staff.

6. My proposals are based on a knowledge of the capabilities of the present staff:—

	Present Staff.	Salary.
		Rs.
1.	Superintendent Mr. Nieves	100
2.	Driver Mr. Durham	60
3.	Do „ Buchan	50
4.	Do „ Sitaram	35
5.	Do „ Price	35
6.	Do Hussain Khan	30
7.	Apprentice Fanceno	20
8.	3 Greasers at Rs. 8	24
9.	1 Blacksmith	20
10.	1 Gardener	6
	Total ...	380

	Proposed Staff.	
		Rs.
1.	Head Driver Mr. Price	75
2.	Driver Mr. Durham	75
3.	Do Hussain Khan	45
4.	Extra Driver Fanceno	30
5.	3 Greasers at Rs. 12 each	36
6.	1 Blacksmith	20
7.	1 Gardener	60
	Total ...	287

I also propose to appoint Mr. Schaefer, who is a 1st Class Mechanic, as Inspector of Pumps. His duties will consist in visiting the pumping station once a month and thoroughly inspecting the pumps, he will give his orders, *re* repairs, &c., and see that these are carried out in a professional manner. Mr. Schaefer was employed to erect the new pump and he thoroughly understands the installation.

I propose to allow Mr. Schaefer Rs. 50 monthly, to cover his travelling expenses and remuneration for loss of time, he is now in business in Bangalore.

7. Messrs. Neaves, Buchan and Sitaram are employed on the work establishment and their services are therefore terminable with a month's notice.

I propose dispensing with their services at once, and giving each man a month's pay, in order to obviate the chance of serious accidents to the new machinery.

Officiating Chief Engineer's Orders, dated 5th June 1901.

I approve of these proposals for the revision of the staff, but I doubt whether Government sanction is not necessary for Mr. Schaefer's periodical inspections.

The Revised Working Staff will come into operation as soon as ever the new turbine is ready to work.

No. 1654-7—L. F. 103-92, DATED BANGALORE, 29TH JULY 1901.

ORDER THEREON—Government are pleased to sanction the Chief Engineer's proposals contained in his letter of the 28th June 1901, tentatively for a period of one year from the 1st July 1901, the only modification being that Mr. Rangaswamaiengar, Executive Engineer in charge of the Chamraj Water Works, will be deputed to inspect and report on the machinery and plant once a month, instead of Mr. Schaefer as suggested by the Deputy Chief Engineer.

2. The early submission of a supplemental budget of the City Municipality, providing for the cost of establishments as now reduced, will be awaited.

No. 116-24—R. 55, DATED BANGALORE, 5TH JULY 1901.

ORDER THEREON—No new Banks were opened during the year.

2. With a total number of 2,896 members, there were working at the close of the year under report 61 Banks, the registered limit of whose funds for the benefit of 837 villages amounted to Rs. 18,9 l,385.

3. The amount of loan sanctioned by Government in favor of the working Banks was in the aggregate Rs. 14,86,500, of which Rs. 13,44,171 had been actually drawn from the Treasury. Of this sum, Rs. 3,71,323 and Rs. 2,75,445 were outstanding against the Saklespur and Chikmagalur Banks, respectively, whose members consist of the leading native coffee planters in the Hassan and Kadur districts.

4. The statistics gathered up to the end of June 1899 show that of the loans obtained from the Banks by the members concerned, 26·9 per cent was utilised for agricultural works, and 73·1 per cent for discharge of debts.

The loans granted by the Banks were mostly on the security of immovable property.

Out of loans obtained to discharge debts, a large sum of Rs. 1,68,919 remained at the end of June 1899 to be accounted for by the members by production of discharged bonds. A special report should be made by the Inspector of Agricultural Banks as to how much of this amount has yet to be so accounted for. It is hoped that proper measures will be adopted by the local authorities to get the documents produced.

5. The total value of the property held as security for the amount advanced by Government was Rs. 47,26,333, at the close of 1898-99. Inspection should be made by the local Revenue authorities and the Inspector, so that the value of the security is effectively maintained and the lands are not allowed to deteriorate through neglect. To carry out this inspection effectively, the advice and help of an expert should, if necessary, be obtained and utilised, debiting the cost thereof to the Banks concerned.

6. The total receipts amounted to Rs. 23,47,542 and the total expenditure to Rs. 23,35,575, leaving a cash balance of Rs. 11,967 at the end of the year.

No. 134-42—R. 65, DATED BANGALORE, 6TH JULY 1901.

ORDER THEREON—The monthly rainfall return is practically a posting statement, so that if the figures are posted in the several District offices day by day or week by week, the few calculations entailed by a broken week at the end of the month being quickly made up, there ought to be no difficulty in the returns leaving the District offices very soon after the close of the month, a little sooner for months of light rains, and a little later for the months of heavy rain. Less than a week for check and compilation in the Dewan's office, and not more than a week for printing, should allow of corrected proofs being despatched from Bangalore before the close of the month following that of Report and of the final issue of the same in the first *Gazette* of the month next following. The subjoined calendar of dates is accordingly prescribed, the month of July being taken for an example of the month of Report :—

District Rainfall Return for the month of July—

(*a*) Should leave the District office by the 7th August.

(*b*) Should leave the Dewan's office by the 14th August for the Press.

(*c*) Press proofs should reach the Dewan's office by the 21st August.

(*d*) Corrected proofs should leave the Dewan's office for the Press on the one side and the Imperial office at Simla on the other side, by the 28th August.

(*e*) Finally in the 1st week of September the statement should appear in the *Gazette* and the prescribed number of additional copies should at the same time be despatched by railway parcel to Calcutta.

Correspondence ending with letter No. 733, dated 20th February 1899, from the Deputy Commissioner, Mysore district, reporting upon the proposed resumption of certain lands granted to Gunja Narasimhaiya in the bechirakh villages of Mellahalli and Kodichamanahalli, Heggaddevankote taluk.

ORDER THEREON—Gunja Narasimhaiya having applied for the marginally described lands which were stated to contain sandal and other trees, they were * ordered to be subdivided into smaller numbers, classed, assessed and disposed of by sale in public auction, such fields as were thickly studded with sandal trees being reserved to Government. But the Superintendent of Revenue Survey having reported that the lands had been overgrown with scrub and could not be readily surveyed and demarcated into fields, they were † ordered to be granted to the applicant (G. Narasimhaiya) on full assessment as originally recommended by the Deputy Commissioner, due care being taken to exclude from his holding and to reserve to Government any particular portions of these lands where sandal growth might be unusually thick, and the applicant being warned that he was responsible that no damage was done by his men to existing trees in other parts. The grant was made subject to the further condition that in the case of the water-supply in the channel being found insufficient for cultivation, he should, without interfering

with the water irrigating the lands already under cultivation, get it at his own cost. He accordingly executed a mutchalika accepting the above conditions, on the 15th May 1894. In June 1895, the Superintendent of Revenue Survey intimated to the Deputy Commissioner that the lands had been temporarily assessed at five and four annas per acre subject to permanent rates being fixed after survey and classification.

2. In his report dated 27th July 1896, to the Deputy Commissioner, Mysore district, the District Forest Officer stated that out of the extent granted to the applicant, about 60 acres of land containing a thick growth of sandalwood and about 50 acres where the growth was not very thick, might be reserved and the rest given out to the applicant. He was, however, of opinion that the whole tract was well suited for natural reproduction of sandal. He further stated that destruction of sandal trees was reported to be going on in the tract.

3. The Conservator of Forests, after placing himself in communication with the Deputy Commissioner, suggested in August 1896, that as the lands in question were considered to be favorable for the natural reproduction of sandal and contained a large stock of fuel trees, they might be resumed and constituted a State Forest, and that the assessment paid by the grantee till then as well as compensation for the small area (8 acres and 2 guntas) cleared, might be refunded to him, unless it be considered that he had forfeited the grant by non-protection of the sandal trees. Gunja Narasimhaiya, when questioned, stated that neither he nor his men caused any damage to the sandal trees in clearing the land for cultivation, while the Deputy Commissioner stated in his letter, dated 1st June 1897, that the above allegation was inconsistent with the state of things which came to his notice at the time of jamabandi, when he observed several small plants burnt or otherwise destroyed.

4. In the joint report, dated 12th August 1898, of the District Forest Officer and the General Assistant Commissioner, submitted by the Deputy Commissioner with his letter of the 20th February 1899, it is stated that the lands were inspected by them on the 11th idem, that the sandal growth is thick over an area of 110 acres, and that after deducting this area for reservation to Government, the rest may be allowed to be held by the grantee. The Deputy Commissioner states that on receipt of the orders of 15th February 1894, the Amildar inspected the lands and selected for reservation three plots of land measuring 6 acres and 17 guntas as containing a thick growth of sandal, but that subsequent inspections show that a much larger area should have been reserved in the interests of sandal revenue. In preference to the acquisition of the whole area by paying a heavy compensation, he recommends that in addition to the 6 acres and 17 guntas already reserved, an area of 110 acres may, as proposed in the joint report, be reserved, the amount of proportionate assessment thereon being refunded to the grantee.

5. The present Conservator of Forests is of opinion that the whole area should be resumed or none at all.

6. Government regret to observe that the lands in question were not properly inspected at the outset and the portion to be reserved was not duly marked off and separated before possession was given to Gunja Narasimhaiya. However, in the face of the Government Order of the 15th February 1894 and of his own mutchalika dated 15th May 1894, it is not open to him to contend that no reservation could be made subsequent to the delivery of possession to him, but he is bound to agree to the proposed additional reservation of 110 acres in consequence of the thick growth of sandal therein. Government are unable to agree with the Conservator of Forests and to direct a wholesale resumption, as it is opposed to the terms of the grant, while the reservation of the proposed area is perfectly justifiable in the interests of Government revenue from sandalwood, which is a State monopoly. If there was neglect or wilful destruction on Narasimhaiya's part, he ought to have been promptly proceeded against under the rules on the subject, and it is unfortunate that in consequence of the pendency of this correspondence for the past seven years, this important and necessary step has not hitherto been taken by the local officers.

7. Under these circumstances, Government direct that, in addition to what has been already reserved, the 110 acres where sandal growth is reported to be thick, be excluded from the grant and reserved, the rest being confirmed to Gunja Narasimhaiya. He will be entitled to a refund of the proportionate assessment paid by him on this area.

8. The rules regarding mischief to sandal trees should also be rigorously enforced in future.

9. The assessment imposed on the lands was only temporary and seems extremely light. Very early steps should be taken to get the lands surveyed, classified and permanently assessed. In fixing the rates, regard will be had to the existence of facilities for irrigation in respect of a portion of the lands.

READ—

Letter C. No. 4, dated 2nd July 1901, from the Deputy Commissioner, Kolar District, to the Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to state that in para 2 of Government Proceedings No. 1833—R. 599, dated 29th August 1900, the Government ordered that early steps should be taken for the repair of a breached minor tank called "Chepukere" near Huldenahalli village in the Malur taluk. The tank appears to have breached about 1887-88, and the lands under the tank were relinquished to Government, *viz.*, wet 11 acres and 23 guntas, and dry 1 acre and 37 guntas, assessed at Rs. 58.

2. An estimate for repairs, for Rs. 1,328, has been prepared, but considering the extent available for cultivation, it would not be a profitable investment for Government to undertake the work.

3. One Purneganda and two others, however, have come forward to undertake and execute the repairs as per the above estimate, and in return request that the lands forming the atchkat may be given to them without sale.

4. I have myself inspected the tank and lands in question and consider the offer of Purneganda as a reasonable one. The Government will thereby receive an increase in kandayam, without any expenditure of capital, and I therefore recommend that the offer should be accepted.

5. These applicants applied to me at first for permission to have this tank repaired and maintained as a private enterprise tank with the concession of ¼ of the tax being remitted anually. They now state that they will forego this concession, if sanction is granted to them early to repair the tank.

No. 387-95—R. 174, DATED BANGALORE, 13TH JULY 1901.

ORDER THEREON—The recommendation made by the Deputy Commissioner is sanctioned.

2. The Deputy Commissioner is requested to fix a time within which the tank should be restored and also make it a condition that the work should be passed by a Public Works Department officer.

No. 484-93—R. 191, DATED BANGALORE, 16TH JULY 1901.

ORDER THEREON—In view of the additional experience gained in British India during the recent famines and the investigations which are being conducted there to improve the famine administration by the light of such experience, it seems desirable that the present condition of the important subject of the famine relief in this State should be reviewed and necessary action taken to place it on a satisfactory and efficient basis.

2. The first and the foremost thing necessary is to revise the Famine Code which was published in 1896. Happily in Mysore there has not been any severe famine since the great famine of 1876-78, and it is only by the results of actual performance elsewhere that the efficiency of the provisions in the local Code can be considered. A revision of the Code was attempted a couple of years ago but the work was not completed. It seems that before the revision is taken up again, advantage ought to be taken of the report about to be published shortly of the Famine Commission which recently held an investigation into the administration of the famine relief under the presidency of His Honor the Lieutenant-Governor of the North-West Provinces. Pending the publication of that report, further action in this behalf will be postponed.

3. But an important point which may now be considered at once is the divergence between the practice laid down in the Mysore Famine Code and what obtains elsewhere in British India with regard to the sequence of famine relief works. In Mysore, village works and small public works precede large public works (section 69 of the Code), whereas in British India the reverse has been thought to be the proper order (para 416 of the Famine Report, 1898). There seems *prima facie* no reason why Mysore should, in this respect, follow an exceptional procedure which is opposed to the wider and more recent experience of the Famine Commissioners who give their reasons for their suggestions in paragraph 417 and which may with advantage be quoted below :—

"The advantages of beginning with public works in preference to village works are :—

(1) that they afford good training grounds for the establishment to be drawn on as works are multiplied;

(2) that they enable the relief officers to deal more readily with large rushes;

(3) that on them proper tasks and discipline can be enforced;

(4) that they sufficiently meet the circumstances of the laboring classes who are the first to leave their homes and can do so without great inconvenience;

(5) village works are thereby held in reserve;

(6) the works are generally works of a useful, if not remunerative, character.

"Village works provide relief for the agricultural population in the neighbourhood of their homes under easier and more congenial conditions than prevail on public works, but there is a danger of their becoming too popular if started too soon, and also of their being too soon exhausted in the event of prolonged distress. In the earlier stages of a famine, the more respectable classes in the village, especially the petty cultivators and proprietors, have resources and employment and are in as urgent need of relief as the laboring classes. They can also be conveniently aided at this stage by advances for wells and land improvement or for seed. As distress deepens they may require further assistance, and village works will give them this under conditions that are not degrading. But to prevent such works becoming unduly attractive,

and to keep off from them the classes who may be more advantageously and conveniently employed on the public relief works, the full amounts that can be earned should generally be appreciably less than on the public works, and it should be a question for the local Government to decide whether payment should not be made strictly by results without a minimum wage, and whether wages and gratuitous allowances to dependants should or should not be curtailed. Village works may, however, be fully opened from the outset in the case of hill or jungle tribes who cannot be induced to attend relief works except in the immediate vicinity of their homes, and for whom special measures will generally be required when distress threatens to become acute."

The Chief Engineer, the Director of Statistics, and the Deputy Commissioners are requested to consider this important point and favor the Government with their opinions at a very early date.

4. The next point which demands prompt attention is the programme of works maintained by the District Officers and the Chief Engineer. It is noticed that in the programme for the year 1900 there are only two sanctioned large works for the whole State, and that they would only provide for 3,834 workers for three months. These are two tanks, one in the Mysore district and the other in the Bangalore district. It seems very desirable to bring many more large works under sanction as soon as possible. The sanction of the plans and estimates would not, of course, carry with it sanction to undertake the works, which would not be commenced until an appropriation of funds had been made to cover the expenditure involved or until the works should be required for the purposes of famine relief.

5. Nearly one-half of the 164 unsanctioned large works to provide for 405,914 workers for three months, are in the Tumkur district. It is understood that there are at present no matured plans and estimates for any of the unsanctioned works, and if so, a mere list of such works is very far from representing an effective relief programme ready for practical use. It is a matter of pressing necessity to secure that famine labor shall be put to the best possible use; and it is even more imperative to see that the country is protected, so far as may be practicable, from the desolating effects of drought by the intelligent utilization to the fullest extent of every potential means of irrigation. A simple inclusion of several works in a list will least carry out the purposes above mentioned, and it is all the more necessary, therefore, that the whole subject of famine relief programmes should be more fully investigated, and thoroughly revised. Money spent on works of little utility, undertaken on the spur of the moment on scanty and doubtful data, because no properly prepared projects are ready, is wasted. Slow and careful investigation is needed beforehand to ascertain the needs and the natural capabilities of the tract in the matter of protective irrigation works It is obvious that famine labor might be turned to advantage if a systematic endeavour were made in ordinary times to plan out works of this kind, which, though they may not be strictly remunerative, would at least be of some permanent utility. The works ultimately selected must also be evenly distributed throughout the State as far as possible, and judging by the standard of the information now furnished by the Director of Statistics, the whole programme seems to require a thorough revision in accordance with the local requirements of the several taluks and districts, the probable extent of distress and the number of people to be provided.

6. The list of major irrigation works completed by the State is readily available, and it is desirable that it should be brought up to date. But with regard to these, it is important to obtain and record information as to the results obtained from these works. Endeavours have been made for the last six years, but even yet reliable information regarding them is not forthcoming in the Revenue Department. It is hoped that the Director of Statistics will devote his personal attention to this matter and have recorded for each major work full information of the extent of irrigation thereby commanded and of other results actually obtained.

7. The Chief Engineer will take early action to get up lists of other works of the descriptions above mentioned and for which the projects are either ready or are under preparation. In addition to these, it is desirable that the existing

programme of works should be thoroughly investigated in accordance with the observations made above, and plans and estimates for all large works should be prepared and kept in readiness. It is also desirable that all other possible works of irrigation must be ascertained and measures taken to have them thoroughly investigated and reported upon. When generally approved, projects for them should be matured and plans and estimates made. The suggestion of the Chief Engineer that Mr. Karve may be specially employed on this work with the temporary rank of a Superintending Engineer, is approved, and orders with the necessary subsidiary instructions will be issued in the Department of Public Works in this behalf. The object should be chiefly to examine localities where protective irrigation works are possible or have been proposed on apparently reasonable grounds and to collect and report all available information regarding them. The intention is to ascertain how far the irrigation possibilities of the State have so far been utilized, and with what results, and what the future possibilities are.

8. Other suitable works also should be included. Section 15 of the Famine Code directs that a railway project shall not, except for grave reasons, be included in the programme of public works. But the lines named in the margin have been nearly decided as the eligible lines to be taken up in the near future, and earthwork required for them may be deemed suitable relief works and included in the programme.

Dodballapur to Chikballapur.

9. The lists of village works and small public works to be undertaken by District Officers and included in their programme, require their constant attention to maintain them in a useful state.

10. One great matter which is apt to be overlooked is the supply of tools and the materials wanted for huts, &c. On occasions of emergency when demands arise and increase suddenly, either the required number of tools and plant are not forthcoming at once or their prices will be raised considerably, so much so that even empty kerosine oil tins for distributing water become scarce and dear. It is desirable to have a store of such tools and other necessary materials always readily available in the Public Works Department, and their number and quantity must be regulated by the number of people for whom relief is generally estimated to be provided. The Chief Engineer is requested to take the necessary action in this matter.

FINANCIAL

Proceedings of the Government of Mysore,

READ—

The following letter No. 6301, dated 31st May 1901, from the Comptroller to the Government of Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments:—

I have the honor to forward herewith, for the orders of Government, copy of docket No. 891—C., dated 21st May 1901, received from the Deputy Commissioner, Treasury Department, Bangalore, in regard to the delay in the transmission of the monthly account of Opium to this office, which is a simple return and no elaborate compilation is necessary. The usual explanation which almost every Deputy Commissioner furnishes for such delays, *i. e.*, the non-receipt of accounts from taluks, is practically of no use to this office and is not satisfactory.

2. Under Article 301 of the Civil Account Code, the Deputy Commissioners are responsible for the immediate detection of irregular practices on the part of their subordinates and the correctness of returns and of their punctual submission to this office. The non-receipt of accounts from the District Treasuries, it is needless to say, causes delay in the closing of the monthly accounts for the Province by this office on due dates.

3. The irregular and incomplete manner in which District Treasury accounts and lists of payments are sent to this office have frequently been brought to the notice of the Deputy Commissioners, Treasury Department, and also to that of Government, without any appreciable improvement. I have therefore again to request that you will bring the matter to the notice of Government with a view that such stringent instructions may be issued as will ensure timely receipt of accounts with all the vouchers and subsidiary returns from the District Treasuries, without which my office finds it very difficult to compile the accounts in that systematic and punctual manner which is laid down both in my Office Manual and the Civil Account Code.

Copy of docket No. 891—C., dated 21st May 1901, from the Deputy Commissioner, Treasury Department, Bangalore district, to the Comptroller to the Government of Mysore.

Has the honor to inform that the submission of the monthly account for Opium is delayed for want of opium return from the Nelamangala taluk. Reminders to that taluk have been issued to hasten despatch of the same. On receipt of which, the same will be submitted.

No. 286-93—FL. 27, DATED BANGALORE, 10TH JULY 1901.

ORDER THEREON—Government regret to have to observe that the existence of such grounds of complaints after various stringent orders on the matter like those conveyed in Proceedings No. 668-78—Fl. 65, dated 23rd July 1900, shows that the Deputy Commissioners and other District Officers on whom the responsibility of sending up returns and accounts rests, do not realize the extent of their obligations. While it is an express breach of duty on the part of Taluk Officers to fail in submitting their accounts at the proper time, the Deputy Commissioners cannot absolve themselves of their own obligation in the matter by throwing the blame on their subordinate officers.

2. Such instances of neglect will be viewed with grave displeasure, and Government trust that there will be no occasion given to repeat orders on such elementary matters of official discipline or to have to notice more specifically individual cases of such neglect.

Secy. to Govt., Gen. & Rev. Depts.

Letter No. 6884, dated 25th June 1901, from the Comptroller, Mysore Government, submitting, for sanction, supplemental Provisional budget estimates of receipts and expenditure for 1901-1902.

No. 310-320—B. E. 50-1898, DATED BANGALORE, 11TH JULY 1901.

ORDER MEMO—The estimates of receipts and expenditure for 1901-1902, are sanctioned, the proposals of the Comptroller being modified as noted below :—

Head of Department.		Addition.	Deduction.	Net result.	Provision as modified in the Budget for 1901-1902.
		Rs.	Rs.	Rs.	Rs.
11 General Administration	... ...	600	17,000	—16,400	5,36,000
17 Education	... ...	38,203	2,000	+36,203	1,67,000
18 Medical	... ...	608	34,288	—33,680	10,000
20 Scientific and Minor Departments	... ...	1,081	.....	+1,081	1,61,000
22 Miscellaneous	... ...	.....	3,22,000	—3,22,000	18,81,000
23 A. Public Works	... ...	1,40,000	.....	+1,40,000	38,01,000
B. Ordinary	... ...	.....	55,000	—55,000	40,000
Total	... ...	1,79,892	4,68,288	—2,88,396	1,74,20,000
Added to obtain gross figures	... ...	.....	.....	+3,13	
				—2,88,383	

According to the estimates thus modified, the receipts will be Rs. 1,78,37,000 and the expenditure Rs. 3,70,25,000, resulting in a deficit of Rs. 91,88,000.

5. It should be observed, however, that out of this expenditure, a sum of 91 lakhs is meant to be spent on the Cauvery Power Scheme, which is an extraordinary work of a reproductive nature, and Rs. 3,40,000 on the organization of a new Transport Corps, which is an extraordinary item of a special nature. If these two items are left out, the ordinary expenditure would give a surplus of nearly three lakhs, even after allowing considerable increases provided for Medical and Education Departments and keeping the Public Works grant at Rs. 38,01,000 or a lakh and forty thousand over and above the fixed scale of 12 lakhs for ordinary and 10 lakhs for extraordinary works. It must be noted, however, that this large grant is not sufficient to meet all the demands upon Government for the repairs and improvement of irrigation works. This supplies will be met by economy in other directions.

6. To keep expenditure strictly within defined limits, Government directed in Proceedings No. 3540-630—F. 343, dated 18th September 1901, that under contingencies, travelling allowances and such other miscellaneous items of a fluctuating nature, the average expenditure incurred during the past three years should be adopted as the guide. Government expect a rigid adherence to the limits prescribed in the budget, as in the present state of finance it is not possible to sanction greater expenditure under these heads.

7. While prescribing strict economy, it is not the intention of Government that efficiency should be sacrificed in any matter to attain this desirable end. Thus, for example, if it is a very essential duty on the part of the higher Revenue and other Officers to visit all parts of their charges at reasonable intervals, and carry out careful and efficient inspections. A great deal more work and of a more useful kind, can be done in this respect by pre-arranged methodical programmes deliberately conceived and carried out, than by purely ad hoc touring for particular purposes and otherwise without any aim or arrangement. No specific and minute rules can be laid down in such matters, which should be left more or less to the judgment and discretion of individual officers ; but much unnecessary expenditure will be avoided and great economy secured if both the sanctioning and the controlling officers will thoroughly realize the importance that

to this duty and personally control the expenditure with a strict regard to economy and real necessity. Government rely upon the hearty and willing co-operation of all the Heads of Departments and the Deputy Commissioners of Districts in this important matter. The Comptroller will watch the expenditure under these heads from month to month and bring to the notice of Government any tendency which he detects for exceeding the limits now laid down—so that corrective action may be taken both promptly and effectively.

5. The Comptroller, Mysore Government, is requested to have the detailed budget estimates prepared and distributed at a very early date, not later than the end of July. It is observed that there was much avoidable and unsatisfactory delay in this respect last year.

To—The Comptroller to the Government of Mysore.
The Deputy Commissioners of Districts.
The Heads of other Departments.

No. Fl. 66-106, dated Bangalore, 22nd July 1901.

Order—The present condition of the finances has rendered it necessary that rigid economy has to be enforced in all the Departments of the State. Only the absolutely necessary provisions for expenditure have been retained in the budget recently sanctioned.

2. The earnest co-operation of all the Heads of Departments and other Officers in guarding against all unnecessary expenditure has been already invited. It may, however, be expected that there will be savings under various heads of the budget. It has been usual that such savings are utilized for other items of expenditure either with or without the sanction of Government. The Government desire that such re-appropriations should be discouraged, and that on no account should a transfer from one major head of account to another be made without the *previous* sanction of Government in the Financial Department, which will not be granted except on very urgent grounds. Such sanction should in no case be anticipated; and nothing involving prospective expenditure, not already expressly provided for in the budget, should be undertaken on the expectation of its being subsequently obtained.

EXCISE

Proceedings of the Government of Mysore.

READ—

The following letter No. 3758—194, dated 10th January 1901, from the Excise Commissioner in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments:—

I have the honor to state that under the old Opium Rules, the minimum quantity of opium which could be purchased by retail vendors, was a seer of 24 tolas. But in the revised Rules published under Government Notification No. 8198—Ex. F. 21-97, dated 19th May 1900, the word "seer" being defined to be a weight of 80 tolas, the retail vendors are required to purchase opium in quantities of not less than one seer (80 tolas) from Government Treasuries, as laid down in Rule XI in the above Notification and Condition III in the license form. This operates as a great hardship on the vendors of the shops in which very small sales are effected. Under such circumstance, it is necessary that the words "24 tolas" should be substituted for the word "seer" in the said Rule and Condition.

2. The sliding scale in Condition IV of the license form, as it now stands, being calculated on the seer of 24 tolas, it has to be corrected in accordance with the seer of 80 tolas.

3. Accordingly the accompanying draft Notification is submitted for favor of early approval and publication.

Also correspondence ending with letter No. 3441, dated 15th July 1901, from the First Assistant to the Resident in Mysore to the address of the Dewan, stating that the Officiating Resident sees no objection to the proposed modification of Rule XI of the Mysore Opium Rules and of the corresponding provision of the license.

No. 1244-53—Ex. F. 21-97, DATED BANGALORE, 24TH JULY 1901.

ORDER THEREON—The draft Notification submitted with the Excise Commissioner's letter read above, is approved and forwarded for publication in three successive issues of the *Mysore Gazette* in English and Kanarese.

NOTIFICATION.

No. 1243—Ex. F. 21-97, DATED 24TH JULY 1901.

In exercise of the powers conferred by Sections 5 and 13 of the Opium Act, I of 1878, the Government of Mysore are pleased to make the following amendments in the Opium Rules and license forms published under Notifications Nos. 8198—Ex. F. 21-97 and 1028—Ex. F. 21-97, dated 19th May 1900 and 31st July 1900, respectively:—

(1) In the Opium Rules, for the words "one seer" in line 1 of clause (1) of Rule XI substitute "24 tolas."

(2) In the license for the sale of opium by wholesale and retail—

(*a*) for the words "one seer" in line 1 of Condition III substitute "24 tolas."

(*b*) for the figures $10\frac{2}{3}$ in line 4, 8 in line 5, $4\frac{4}{15}$ in line 6, and $4\frac{4}{15}$ in line 7 of Condition IV, substitute the figures $3\frac{1}{3}$, $2\frac{2}{5}$, $1\frac{7}{15}$ and $1\frac{7}{15}$ respectively.

(*c*) for the word "seer" in line 10 of the same condition, substitute "24 tolas" and

(*d*) for the words "sixteen seers" in the same line substitute "384 tolas."

READ—

The following letter from the Excise Commissioner in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments—

In submitting herewith copy of the marginally noted correspondence, I have the honor to state that in the notice for sale of ganja shops for the year 1901-1902, it has been clearly stated that ganja should be sold by the licensees of retail shops at not less than the prescribed minimum price of Rs. 5 for a seer of 80 tolas of ganja and of Rs. 1-10-8 for a seer of majum. In the Madras Presidency, as well as in the Civil and Military Station of Bangalore, minimum retail price only is fixed similarly. As the wording in regard to the retail price in the Ganja Rules and Retail License form has also to be altered accordingly, I beg to send herewith for approval and publication a draft Notification embodying the necessary amendments.

1. The Deputy Excise Commissioner's letter No. 172, dated 1st August 1900, to the Excise Commissioner.
2. Docket No. 1162—270, dated 15th August 1900, to the Deputy Excise Commissioner.

ENCLOSURES.

Letter No. 172, dated 1st August 1900, from the Deputy Excise Commissioner to the Excise Commissioner in Mysore.

With reference to your No. 292—65, of the 11th July 1900, regarding the retail price of ganja, there appears to be some conflict between Clauses III and VII of the Retail License and the rates laid down in Government Notification No. 772—Ex. 43, dated 27th July 1898. This has given rise to doubts as to what was the real intention of Government. It appears to me that Government probably intended to fix a minimum price only, so that a maximum of revenue might be obtained with a minimum of consumption.

Docket No. 1162—270, dated 15th August 1900, from the Excise Commissioner in Mysore to the Deputy Excise Commissioner in Mysore.

The Deputy Excise Commissioner's docket No. 172, dated 1st instant.

In reply has the honor to state that the Deputy Excise Commissioner is right in thinking that the prices fixed in the Ganja Rules are evidently the minimum prices, as it is laid down in Condition VII of the License for the retail vend of ganja that the licenseholder shall not sell ganja, majum, &c., for less than the fixed price. Accordingly the Excise Officers should see that ganja, &c., are not sold for less than such prices, and they should not interfere if the licensees can get from the consumers more than the same.

No. 1255-64—Ex. F. 2-97, DATED BANGALORE, 24TH JULY 1901.

ORDER THEREON—The draft Notification submitted with the above is approved and forwarded to the Compiler, *Mysore Gazette*, for publication in three successive issues of the *Gazette* in English and Kanarese.

NOTIFICATION.

No. 1254—Ex. F. 2-97, dated Bangalore, 24th July 1901.

In virtue of the powers conferred by Section 55 of the Excise Act, XXII of 1881, as amended by Act VI of 1885, and introduced into Mysore by Regulation III of 1885, the Government of Mysore are pleased to make the following amendments in the Ganja Rules and license forms published under Government Notification No. 772—Ex. 43, dated 27th July 1898:—

Ganja Rules.

(1) In the table under Condition VIII, substitute "Retail minimum price" for "Retail price."

"G" Retail License.

After the word "sold" in line 2 of Condition III, substitute "at not less than the prescribed minimum price of Rs. 5 for a seer of 80 tolas of ganja and of Rs. 1-10-8 for a seer of 80 tolas of majum," for "at a fixed price of for a seer of 80 tolas of ganja and annas for a seer of majum;" and in line 4 of the same Condition, after "whatever" add the words "without special permission."

PETITION

Proceedings of the Government of Mysore,

BEFORE THE GOVERNMENT OF MYSORE.

PRESENT:

V. P. MADHAVA RAO, ESQ., C. I. E.

AND

C. SREENIVASIENGAR, ESQ.

Appeal No. 6 of 1900-1901.

	Versus	
Appellant-plaintiff Nagappa, son of Venkatasubbiah of Turuvekere.		Respondent-defendant Ramaswamiah, son of Nagappa.

Subject.

Appeal against the order of the Deputy Commissioner, Tumkur district, dismissing the plaintiff's suit for the possession of the pateli offices of Turuvekere Amanikere and Bidiswasti in the Turuvekere sub-taluk.

Facts of the case.

Nagappa (appellant) and Ramaswamiah (respondent) are descendants of a common ancestor, the latter being the registered patel of five villages including the two the registry of which is claimed by the former. In 1888 Ramaswamiah appointed gumastas of the Vakkaligar caste to look after the duties of two of the villages. Nagappa protested against this arrangement and claimed the offices on the ground that he was a hissedar, but he was referred by the Deputy Commissioner to a regular suit.

2. In May 1899, Nagappa sued Ramaswamiah for the possession of the pateli offices of Turuvekere Amanikere and Bidiswasti, and the Assistant Commissioner who tried the suit decreed to Nagappa the possession of the pateli offices of two other villages to which gumastas had been appointed by the respondent. On appeal, the Deputy Commissioner dismissed the suit as barred by limitation. Hence this appeal to Government.

Decision.

The defendant-respondent is the registered patel, and the hak has been in the enjoyment of himself and his ancestors for more than fifty years. There is no evidence of plaintiff's (appellant's) branch having ever enjoyed the hak. No cause of action has arisen for plaintiff suing for a portion of the hak. His claim can come in only on the extinction of defendant's branch. Appeal is dismissed. The question of limitation does not arise in the view above taken of the case.

No. 2—P. F. 1-1901, DATED BANGALORE, 1ST JULY 1901.

Copy of the above is forwarded to the Deputy Commissioner, Tumkur District, together with the records received with his No. 868, dated 23rd March 1901.

Appeal No. 45 of 1898-99.

	Versus	
Appellant Krishnappa of Bidare village, Gubbi taluk.		Respondents 1. Subbanna. 2. Venkataramaiya. 3. Venkatanarnappa. 4. Ramanna. 5. Venkatakrishnappa.

Facts of the case.

In this case appellant Krishnappa, son of Venkataramanaiya, sues to have the shanbhogi of Satenahalli in Gubbi taluk, which now stands registered in the name of Venkata-

ramaiya, 2nd respondent. The 2nd respondent and the other respondents are sons of o Thammaiya, younger brother of appellant's father, Venkataramanaiya. Venkataramanaiy father of appellant, was the registered officiator up to 1864. In the register of 1864 an entry is made as follows :—

"Register confirmed in the name of Thammaiya, younger brother of Venkataramanaiya, former Registerdar."

2. The entry does not show under what circumstances the transfer was made. It is presumed that it was on account of the advanced age of the Registerdar and of the minority of the appellant who was then 10 years of age.

3. In 1885 the appellant applied to Government to have the office transferred to his name but was told that the then existing arrangement under which Thammaiya was officiator could not be disturbed, but that appellant Krishnappa's name might, however, be entered as hakdar.

4. In 1811 Thammaiya appears to have attempted to get the entry transferred in favor of his son, Venkataramaiya, 2nd respondent. The Deputy Commissioner, however, directed that there need be no change in the register during Thammaiya's life-time, but that 2nd respondent, his son, might officiate as gumasta. Thammaiya died in 1895, and the appellant again pressed his claim, but the Deputy Commissioner decided in favor of the 2nd respondent, on the ground that as the deceased Thammaiya had competent sons, their claims could not be set aside.

5. On an appeal to Government against this decision, the Government declined to interfere.

6. The plaintiff then filed the present suit in the Court of the 2nd General Assistant Commissioner, Tumkur district, in August 1898, and got a decree in his favor, which was reversed by the Deputy Commissioner in Appeal No. 3 of 1898-99. Hence this 2nd appeal to Government.

Decision.

In asking for, or agreeing to, the transfer of the office of shanbhog from his own name to that of his younger brother, Thammaiya, Venkataramanaiya could not, in the opinion of Government, have intended that the office should pass out of his (elder) branch of the family altogether or that the transfer should continue to be in force beyond the life-time of the transferee, especially when Venkataramanaiya had a minor son living. That being so, it is clear that on the death of the transferee (respondent's father, Thammaiya) the office reverted to the transferer's son and legal heir, the appellant.

2. This, in the opinion of Government, was not a case of absolute relinquishment. The question whether of two competent hakdars forthcoming, the son of the last holder is not entitled to succeed in preference to the other, does not consequently arise. The Deputy Commissioner's decision is accordingly reversed and that of the 2nd General Assistant Commissioner, restored.

Appeal No. 7 of 1900-1901.

Appellant	*Versus*	Respondent
Lingannaiya of Basaralu village, Mandya taluk.		Parameswaraiya of Basaralu village.

The Facts of the case are:—

The appellant's father, Kasaiya, and the respondent's elder brother, Mahadevaiya, were the joint hakdars to the shanbhogi offices of Basaralu and sixteen other villages. Kasaiya was the officiator for eight of the villages and Mahadevaiya for the nine remaining villages, including Basaralu. In 1883, Lingannaiya and Kapanipathaiya (appellant's brother) brought a suit in the Court of the Sub-Division Officer of French Rocks for the recovery of the shanbhogi office of Basaralu. During the hearing, the parties entered into a compromise whereby Mahadevaiya was to continue to be the officiator shanbhog of Basaralu but should pay to Kapanipathaiya and Lingannaiya Rs. 8 annually out of the miras until the Survey Settlement and thereafter should pay ¼ of the katcha potgi fixed for the villages. The Sub-Division Officer passed a decree in 1884, in accordance with the compromise.

(2). At the pakka potgi settlement, Basaralu village was constituted into a firka, the remaining eight villages in Mahadevaiya's possession being divided into two firkas. In 1897, Mahadevaiya being called upon to nominate separate officiators for each of the firkas, he nominated one of his sons and his brother, Parameswaraiya, for two of the firkas, reserving the third firka for himself. Lingannaiya, the appellant, claimed that he should be appointed officiator of Basaralu firka as he was a hakdar thereto under the Sub-Division Officer's decree of 1884. The Sub-Division Officer at first appointed Lingannaiya to be the officiator shanbhog of Basaralu, but on the subsequent representation of Mahadevaiya and Parameswaraiya, cancelled the appointment and, as Mahadevaiya died shortly after, directed an enquiry regarding his heirs. On the appeal of Lingannaiya to the Deputy Commissioner, the Sub-Division Officer's order was confirmed.

Decision:

This appeal is virtually an attempt to re-open the decision passed in 1884 by the Sub-Division Officer of French Rocks on the mutual agreement of the parties. Under that decision, appellant and his brother, Kapanipathaiya, were awarded ¼ of the katcha potgi on the Basaralu firka, and Mahadevaiya, deceased brother of the respondent, was left in possession of the Basaralu firka as shanbhog. This was a final settlement of the hak as between the parties, and Mahadevaiya's death does not give appellant any new cause for getting the question re-opened. The decision of 1884 is confirmed and this appeal is rejected.

2. On the representation of the Advocate for appellant, that Government may be pleased to declare that the appellant is entitled to a third of the pakka potgi of the Basaralu kasba firka, it is further decided that from the wording of the Sub-Division Officer's order, it is clear that the appellant was entitled to ¼ of the emoluments and that the mention of katcha potgi should be construed as implying pakka potgi also. It is possible that as pakka potgi was in the remote future, no reference was made to it. Government think that the equitable order is to decree appellant a third of the potgi of the Basaralu firka and modify the Sub-Division Officer's decision accordingly.

Appeal No. 22 of 1900-1901.

Appellant	*Versus*	Respondent
Mr. A. Ramanna, Mysore.		Mr. C. Devaraj Urs, Assistant Commissioner.

SUBJECT—Appeal against the Deputy Commissioner's order declining to grant to the appellant certain unoccupied lands of Managanahalli and Bettadur villages, Hunsur taluk.

Facts of the case.

For arrears of revenue due for the year 1898-99, the respondent's land S. No. 115 (6 acres and 36 guntas—Rs. 19) of Managanahalli village, Hunsur taluk, was declared forfeited by the Amildar on 21st April 1899, and after the preliminary processes, sold on 27th May 1899 by the shekdar and bought in on behalf of Government for a nominal price as there were no bidders. The Amildar, in requesting the sanction of the Deputy Commissioner for the confirmation of the sale, explained that there were no bids, as the people were not sure that the sale would be confirmed. The Deputy Commissioner refused to accept the Amildar's explanation for the absence of bids and directed a re-sale by the Amildar himself. The re-sale was held on 30th August 1899, by the Amildar, but there were no bids and the purchase of the land on behalf of Government was confirmed by the Assistant Commissioner on 19th September 1899.

2. For arrears of revenue due for the year 1898-99, the respondent's lands * in Bettadur village of Hunsur taluk were declared forfeited by the Amildar and sold by the Taluk Sheristadar on 27th June 1899 and were bought on behalf of Government for want of bids. The sale was confirmed by the Assistant Commissioner on 21st August 1899.

3. On 5th September 1899, Mr. A. Ramanna, Advocate, applied to the Deputy Commissioner for the grant of the above lands (of Managanahalli and Bettadur) and stated that he was prepared to pay the arrears on the lands plus 20 per cent in addition. The Deputy Commissioner directed that the lands should be sold by the Amildar in public auction, Mr. Ramanna's offer being considered as the upset price. The lands were sold on 13th December 1899, by the Taluk Sheristadar, for Rs. 105 to the appellant. The Deputy Commissioner made certain adverse remarks on the proceedings of the Amildar and referred the matter to the Assistant Commissioner in charge of the taluk. On 22nd February 1900, the Assistant Commissioner cancelled the sale as it was not held by the Amildar himself, as directed by the Deputy Commissioner, and directed a re-sale, which was subsequently fixed to take place on 16th April 1900.

4. Meanwhile the wife of Mr. C. Devaraj Urs had the arrears paid into the Taluk Treasury on 12th December 1899 and applied to the Deputy Commissioner on 20th December 1899 for the cancellation of the sale of the lands. She made a subsequent application on 13th April 1900, to the Deputy Commissioner (Mr. B. K. Venkatavaradaiengar), who directed on the same date, *i. e.*, three days before the date fixed for the second sale, that the lands be made over to her as the arrears had been paid. Against this order Mr. A. Ramanna has appealed to Government.

3. On 5th September 1899, Mr. A. Venkatavaradaiengar), who directed on the same date, *i. e.*, three days before the date fixed for the second sale, that the lands be made over to her as the arrears had been paid. Against this order Mr. A. Ramanna has appealed to Government.

Decision:

There are two points involved in this case. One is the legality of the order of the Deputy Commissioner (Mr. Venkatavaradaiengar) ordering the lands to be granted to the defaulter on payment of arrears after they had been forfeited and sold and bought in by Government.

2. The other is whether the first sale to appellant was properly cancelled on the ground that instead of the Amildar holding it, as directed by the Deputy Commissioner, the Sheristadar had conducted it.

3. Regarding the first question it was highly irregular on the part of the taluk authorities to have received the arrears after the land had been bought in. The land had become unoccupied, unalienated land on the hands of Government, and the defaulter had long before lost all claims to it.

4. If the defaulter's producing the arrears could be construed to be a darkhast for the lands, they should have been sold by public auction under the Rules. But before the defaulter produced the arrears, appellant had applied for the lands and they had been knocked down to him in an auction sale. The Deputy Commissioner, however, cancelled this sale on the ground that it had been conducted by the Sheristadar instead of by the Amildar. The Government do not see that this was a proper ground for setting aside a sale otherwise properly conducted, but in these cases they do not wish to interfere with the discretion vested in Deputy Commissioners.

5. The sale having been set aside, the lands which, as above noted, are unoccupied unalienated lands, should be again sold. It was against the Rules to have granted the lands to the defaulter. The Deputy Commissioner's order is set aside.

Appeal No. 10 of 1900.

Appellant	*Versus*	Respondent
Madariga *alias* Maniga of Doddasivara, Malur taluk.		Nanjundappa.

Subject.

Appeal against the Deputy Commissioner's order directing that the respondent be put in possession of the Lohar Inami lands of Doddasivara village, Malur taluk.

The facts of the case.

In July 1896, the respondent complained to the Deputy Commissioner that although he was performing the duties of Lohar in the village, the inam lands attached to the office were in the possession of the appellant, and prayed that he might be put in possession of the lands. The Amildar found on enquiry that the appellant was in possession of the lands since 1885, having bought them from one Lingappa, nephew of the last inamdar, and recommended that the lands might be resumed from the appellant. The Deputy Commissioner passed an order accordingly. Madariga appeals to Government against the same and urges that the lands might be confirmed to him on full assessment.

Decision.

This is not a case for summary interference by the Revenue authorities. Appellant has been in possession of the Lohar inami lands from 1885. He is not a Lohar by caste and does not render any service as a Lohar. Under such circumstances, the ruling of Government in Proceedings No. 8828-9—R. F. 216-92, dated 16th December 1892, should

apply. Full assessment will be put on the lands. The Deputy Commissioner was wrong in ordering possession to be given to the respondent on the ground that he was prepared to discharge the duties of Lohar to the community and was in other ways entitled to hold the lands in preference to appellant. These are questions which, as remarked above, it was not competent to the Revenue authorities to consider and adjudicate upon.

2. Appellant's possession will be restored. Appeal allowed.

Krishnappa of Kolatur, Anekal taluk.		Venkamma.

Subject.

Appeal against the order of the Deputy Commissioner, Bangalore district, directing the removal of Krishnappa, the appellant, from the office of shanbhog-gumasta of Kolatur village.

The facts of the case.

Kitchaiya, shanbhog of Kolatur village, died in 1885 leaving three minor sons and a widow. The shanbhogi office was registered in the name of Venkamma, his widow, and Butchaiya, the widow's brother, was appointed gumasta. Butchaiya having relinquished the office after a few years, Krishnappa, the 2nd son of the deceased Kitchaiya, began to look after the duties of the shanbhogi office as gumasta till 1890, when he was removed from office for having delayed the remittance of revenue collections. He was succeeded in the office of gumasta by his elder brother Subbaiya, who left the taluk about the year 1896 and has not been heard of since. In August 1897, Krishnappa was again appointed to the office, but was ordered by the Deputy Commissioner in the next month to vacate the office in favor of his younger brother on the complaint of his mother, the registerdar.

2. The present appeal is against this order.

Decision.

On the death of the last office holder, Kitchaiya, the hak should have been registered in the name of the eldest son, and if he was absent and the other sons were minors, a gumasta should have been appointed to do the duties. It was not a proper order to have made the widow the registerdar. However this may have been, there is no question that in the absence of the eldest son, who has been absenting himself for long periods and latterly has not been heard of for the last five years, the proper person to be entered as register-hakdar is appellant Krishnappa, the second son. The baraward will accordingly be made out in his name and he will also officiate. The respondent, mother of Krishnappa, has given a deposition that she has no objection to Krishnappa having the register made out in his name although she would prefer one of Subbaiya's minor sons being made barawarddar and Krishnappa gumasta. But the family being an undivided one, Government do not see why the register should not be made out in the name of the second son, who is able to do the duties.

2. Krishnappa's name is accordingly ordered to be entered as hakdar-officiator. Appeal allowed.

Appeal No. 24 of 1899-1900.

Appellant—Venkatagiriah of Harisandra, Anekal taluk.

SUBJECT.—Appeal against the order of the Deputy Commissioner, Bangalore district, directing that Survey No. 14 of Hasarvani village be treated as shanbhogi service inam and be fully assessed under the Potgi Rules.

The facts of the case are clear from the following decision :—

Decision.

A piece of wet land No. 14 in enjoyment of appellant and now attached to the village of Hasarvani, which was before entered as shanbhog service inam, was shown in the Jodidar Patrika as Brahmadaya during the Survey Settlement. Subsequently on a representation being made to the Survey Superintendent that the land formed part of shanbhogi inam, full assessment was put on it, the land being ordered to be shown under service inam. It is against this order the appellant appeals. He says that he is not doing the duties of shanbhog of the village and that he never performed them. It is not clear how the land came to be entered as shanbhogi inam in the first place. Being, however, a shanbhogi service inam, it should not have been brought under the head of Brahmadaya. This appears to have been done by the shanbhog through ignorance, and when the irregularity was brought to the notice of the Superintendent of Survey in 1898, he had the mistake rectified. The appellant is admittedly not the shanbhog. Government do not see reason to reverse the order of the Superintendent of Survey and restore the land to the head of Brahmadaya. The precedents quoted by him do not apply to the case. In the Sarjapur case, the man enjoyed the inam as Kere shanbhog, and as there was no longer any need for his services, as Kere shanbhogship had long since been abolished, the case was, on the analogy of the obsolete offices of Desamukh and Desakulkarni, brought under the head of Brahmadaya and dealt with under the Inam Rules applicable to it.

Appeal No. 12 of 1900-1901.

Appellant		*Respondent*
Lingamma, Kasba Kunigal.	*Versus*	Thammaraju, patel of Vaddarkuppe.

Subject—Appeal against the order of the Deputy Commissioner, Tumkur district, requiring Lingamma, the appellant, to establish her claim to the lands in the khata of her deceased brother Mallaraju, in a Court of Law.

The facts of the case are :—

In June 1898 Mallaraju died without issue, leaving by a will all his movable and immovable properties in Kunigal to his sister Lingamma. Thammaraju, a distant cousin of the deceased, claimed that the lands in the khata of the deceased should be transferred to his name on the ground that he was the nearest heir to the deceased. The Amildar

enquired into the matter, found that the appellant was in possession of the lands, and submitted the question for the orders of the Deputy Commissioner during the jamabandi of 1899-1900. The Deputy Commissioner directed Lingamma to prove her will in a Court of Law within a year and ordered that till then the registry need not be changed, kandayam being accepted from the actual occupant of the lands. Hence this appeal by Lingamma, who contends that it is not she, but the respondent that should go to a Court of Law.

Decision.

The Jamabandi Officer (Deputy Commissioner) need not have considered the question of heirship and as to who, between the contending parties, had the preferential claim to be entered as khatedar. Appellant Lingamma, sister of the deceased khatedar, was in possession and the registry should have been made out in her name and the objector, who is a distant cousin, referred to the Civil Courts.

Sitaramiah.		Venkamma.

Subject.

Appeal against the decision of the Deputy Commissioner, Tumkur district, registering Venkamma as shanbhog of Melanahalli firka in the Chiknayakanhalli taluk and appointing Raghavendrappa, Venkamma's husband, as her gumasta.

Facts of the case.

In January 1897, Krishnappa, the registered shanbhog of Melanahalli, Chikkenhalli and Yerehalli villages of Chiknayakanhalli taluk, died leaving behind him two daughters. Before his death, he stated before the Amildar that the shanbhogi office should be registered in the name of his elder daughter (Venkamma) and that her husband should be appointed as her gumasta.

2. Sitaramiah, a divided nephew of the deceased, petitioned the Amildar claiming the shanbhogi office for himself. The Assistant Commissioner in charge of the taluk held that in the absence of male heirs in the direct line, the office should be registered in the name of the appellant, who was, however, directed to pay ¼ of the potgi to the respondent. On appeal the Deputy Commissioner directed the registry in the name of the respondent and appointed her husband as her gumasta. Hence this appeal by Sitaramiah.

Decision.

This is a clear case. It is one of succession under the Hindu Law. Respondent Venkamma is daughter of the last registered shanbhog hakdar Krishnappa. Appellant Sitaramiah is a distant divided cousin. Under the circumstances, respondent's right to succeed is unquestionable under the Hindu Law. She is accordingly registered as hakdar and the order of the Deputy Commissioner confirmed. Her husband has been nominated as gumasta. This is also a proper arrangement.

Appeal No. 59 of 1898-99.

Appellant—T. Ramachandra Rao, Amildar, Anekal taluk.

Subject—Appeal against the order of the Deputy Commissioner, Mysore district, declining to recognise Survey Nos. 126 and 127 of Heggadahalli village as part of the appellant's land Maji No. 80 of the same village.

The facts of the case are stated in the following letter of the Deputy Commissioner, Mysore district, No. 815 dated 2nd March 1900 :—

"Adverting to your Official Memorandum No. Pet. 945, dated 14th June 1899, forwarding for report a petition from T. Ramachandra Rao, Amildar, Sagar taluk, Shimoga district, appealing against this office order declaring that a portion of his land should form part of Government Banjar, &c., I have the honor to state as follows :—

"2. One Magadi Krishnabhatta was originally the occupant of Maji No. 80 (dry) of Heggadahalli village, Hura hobli, Nanjangud taluk, measuring 8 kolagas and 2 manas assessed at Rs. 5-13-4, and the same was relinquished by him in March 1870. This land was subsequently obtained on darkhast by one Narasegauda of Byalar village in November 1876, and after his death it was sold by his widow Devamma and his brother Girigauda to Mr. M. Shama Rao, Manager, Palace Stables, Mysore, for Rs. 500 by a registered deed of conveyance, dated 9th December 1889. Mr. Shama Rao is now the Pattadar; and Ramachandra Rao, the appellant, and Seshadri Iyengar, Sub-Registrar, Nanjangud taluk, are the Anubhavadars (enjoyers) of the land.

"3. During the Survey Measuring Operations, the Maji No. (80) in question was divided into four survey numbers as per margin with an aggregate extent of 9 acres and 34 guntas when Mr. Shama Rao complained to the Superintendent, Revenue Survey, that a portion of the land belonging to his number had been included by the measurer in the adjoining Government waste Maji No. 79, and he requested that the same which had been formed into two Survey Nos. 126—158 and 127—159 measuring 2 acres and 13 guntas and 2 acres and 4 guntas, respectively, might be measured into Maji No. 80. But the Survey Superintendent informed Mr. Shama Rao, by an endorsement No. 15, dated 31st August 1892, that as the land claimed by the latter had been reported to be Government banjar containing date trees, nothing could be done by his Department in the matter and that if the claimant had any right, he should establish the same through the Revenue Department.

† As subsequently altered.

"4. Thereupon Mr. Shama Rao agitated the question before the Amildar by means of a petition dated 25th November 1893, but before it was disposed of, the Anubhavadars converted a portion of their land (Maji No. 80) into wet and enclosed a portion of the contiguous Government waste land (Maji No. 79) by extending their hedge beyond the limits of their own land No. 80. This fact was brought to the notice of Mr. Assistant Commissioner N. Venkata Rao, during the jamabandi of the taluk for 1894-95, and the then Amildar Narasanna reported after personal inspection that the land encroached upon lay outside the old manul hedge denoting the boundaries of Mr. Shama Rao's land Maji No. 80. In spite of this cogent evidence of encroachment and the fact that the extent (9 acres and 34 guntas) of land found in Maji No. 80, during the Survey measurement, was nearly double the old recorded extent, *viz.*, 5 acres and 15 guntas, the Jamabandi Officer decided by an order dated 14th April 1895, that the land claimed by Mr. Shama Rao, *viz.*, Survey Nos. 126—158 and 127—159, formed part of the latter's holding, and directed that the same should be registered in his khate. This order was not carried into effect, as no alteration in the accounts was called for till the Survey Settlement which was only lately introduced into the taluk.

"5. In July 1898, when I was on a tour of inspection in the taluk, I found that the occupant of the aforesaid Maji No. 80 had encroached on the adjoining Government waste land containing numerous shendi trees, and my enquiry into the matter disclosed facts as stated above. The land encroached upon is a date grove having more than 4,000 trees, many of which are more than 50 years old and it is impossible to believe nor is there any evidence to show that such a land was given out for cultivation, and it is a question whether the large excess of upwards of 4 acres discovered in Mr. Shama Rao's holdings as recognised by the Survey Department, is not due to encroachment on the adjoining Government

waste land. The boundaries given in the sale-deed and relied on by the appellant as also by the Jamabandi Officer cannot, in the absence of authentication by any Government records, be taken as a guide for the determination of the point at issue. The transferer could not convey what was not his own property. The boundaries stated by him in the deed of conveyance are immaterial and do not affect the case.

"6. Under these circumstances I cancelled the order of the Jamabandi Officer and by an order dated 6th August 1898 directed the issue of a notice to the Khatedar and Anubhavadars of Maji No. 80 (corresponding Survey Nos. 128—164, 129—165, 130—166 and 131—167) not to interfere with the adjoining Government waste land No. 79 (corresponding Survey Nos. 126—158 and 127—159). Ramachandra Rao has appealed to Government against this order.

"7. The vernacular records connected with the case, as per accompanying ferist, are submitted for reference and the enclosures of your memorandum under reply are herewith returned."

Decision.

Government do not see reason to interfere with the order of the Deputy Commissioner.

Appeal No. 4 of 1900-1901.

Appellants (plaintiffs)	*Versus*	Respondent (defendant)
1 Sitaramiah.		Ramachandrappa.
2 Krishnamurti.		

Subject.

Appeal against the decree of the Deputy Commissioner, Bangalore district, dismissing the plaintiffs' suit for the recovery of the shanbhogi office of Kasba Devanhalli.

The facts of the case are clear from the decision:—

Decision.

This is a hard case. Appellants represent the family which had the shanbhogi hak of Kasba Devanhalli. Appajiah, father of respondent, was in possession of one out of three shares in the shanbhogi and was doing duty jointly with Dasappa, grandfather of appellants. In 1856, he was ousted from participation in the duties of the office. In 1857, he was, with the consent of Dasappa, ordered by the Superintendent of the Bangalore Division to be registered with Dasappa and to officiate jointly with him. Appajiah, who was apparently a stranger, thus acquired the status of a hakdar for the first time in 1857, but the possession appears to have been ever since in him and his heirs jointly with Dasappa, till the latter's death in 1883, and exclusively since then. The appellants were minors at the time of their grandfather's and their father's death within two months of the grandfather's. There is no question of limitation in the case, but plaintiffs (appellants) cannot ask to be allowed to oust defendant (respondent) who is already in possession.

2. Appeal dismissed.

No. 214—P. F. 11-01, DATED BANGALORE, 30TH JULY 1901.

Copy of the above is forwarded to the Deputy Commissioner, Bangalore District, together with the records received with his No. D. 1370, dated 9th March 1901.

MUZRAI

Proceedings of the Government of Mysore,

READ THE FOLLOWING PAPERS :—

(i) Government Proceedings No. C. 25-34, dated Camp Mysore, 14th March 1895 :—

ORDER—The Government resolve to republish, for general information and guidance, the following Circular Order No. 30, dated the 26th October 1854, issued by the late Commissioner, Lieutenant-General Sir Mark Cubbon, regarding suits for Pujari rights.

2. Appeals from the Amildar's decisions in such cases now lie to the District Muzrai Officer and the Deputy Commissioner, against whose decisions final appeals lie to the Government in the Muzrai Department.

Mysore Commissioner's Circular No. 30, dated 26th October 1854, to the Superintendents of Divisions.

I have the honor by desire of the Commissioner to request that you will have the goodness to cause the necessary instructions to be issued to the Amildars, prohibiting the institution of suits for Pujari rights in the Courts of your Division, but that the Amildars may enquire into such disputes * * * and decide them, and that these decisions may be appealed against to the Commissioner's Huzur where the Muzrai affairs are managed."

(ii) Docket No. 866-73, dated 12th February 1900, requesting the Deputy Commissioners of Districts to report upon the practice obtaining in their respective districts in the matter of suits relating to Pujari rights.

(iii) Kadur Deputy Commissioner's letter No. 1084, dated 19th February 1900, reporting that no such suits have yet arisen in his district, that, in the case of miscellaneous Muzrai orders made by Amildars, appeals are preferred either to the Assistant Commissioner concerned or to the Deputy Commissioner, that in the latter case they are generally referred to the Assistant Commissioner concerned, and that appeals from his decision are made to the Deputy Commissioner.

(iv) Tumkur Deputy Commissioner's letter No. 722, dated 15th March 1900, reporting that appeals from Amildars, or Assistant Commissioners' decisions are invariably entertained and disposed of by the Deputy Commissioner.

(v) Bangalore Deputy Commissioner's letter No. 977, dated 10th April 1900, reporting that appeals against Amildars' decisions are not entertained by the Assistant Commissioners but are heard by the Deputy Commissioner himself or referred by him to Assistant Commissioners.

(vi) Kolar Deputy Commissioner's letter No. 3626—767, dated 9th May 1900, reporting that subsequent to the issue of the Government Order of 14th March 1895, appeals against the decisions of Amildars in Muzrai suits are being heard and disposed of by the Deputy Commissioner himself.

(vii) Shimoga Deputy Commissioner's letter No. 1019—36, dated 26th May 1900, reporting that Amildars do not in general dispose of suits for Pujari rights but that they hold a formal enquiry and submit the records to the Assistant Commissioner in charge of the taluks or the Sub-Division Officer, as the case may be, for orders, and that against their orders, appeals lie to the Deputy Commissioner as head of the District Muzrai Department.

(viii) Chitradurg Deputy Commissioner's docket No. 586—27, dated 22nd February 1900, reporting that there have been no such appeals entertained by Assistant Commissioners in the district.

(ix) Mysore Deputy Commissioner's docket No. 112, dated 5th March 1900, reporting that suits are in the first instance enquired into and disposed of by the Amildars, that appeals against their decisions are entertained by the Sub-Division Officer or the Assistant Commissioner in charge of the Muzrai work of the district, and that the decisions of these officers are appealed against to the Deputy Commissioner.

No. 35-44, DATED BANGALORE, 8TH JULY 1901.

ORDER THEREON—The Government observe that while the Government Order of the 14th March 1895, read above, contemplates only two appeals in regard to suits for Pujari rights against the decision of an Amildar—one, the first appeal to the Deputy Commissioner or the District Muzrai Officer, and the second appeal to Government, whose decision is final,—there is a diversity of

practice prevailing in the several districts. In some districts, the appeals from the decisions of Taluk Amildars are entertained by the Sub-Division Officer or the Assistant Commissioner in charge of the Muzrai work of the district or the taluk concerned, and the decisions of these officers are appealed against to the Deputy Commissioner, while in other districts the appeals against the Amildars' decisions do not go before the Sub-Division Officer or the Assistant Commissioner, but are heard and decided by the Deputy Commissioner himself, whereby the parties are either deprived of the benefit of a second appeal or have to take up a third appeal to Government.

2. To prevent future trouble, the Government hereby repeat the instructions laid down in the Circular Order of the 14th March 1895, and, in explanation thereof, direct the Amildars to dispose of suits relating to Pujari rights in the first instance, and Deputy Commissioners and not their Assistants to entertain and decide the appeals from the Amildars' decisions, except when the Deputy Commissioner is a European Officer, in which case he may refer the case to his Assistant Commissioner, the second appeal in such cases lying to Government in the Muzrai Department.

PUBLIC WORKS.

Proceedings of the Government of Mysore,

READ—

The following Note by the Officiating Chief Engineer, dated 2nd instant, submitting for sanction, the Public Works budget estimates for the year 1901-1902 :—

I beg to submit, for the sanction of Government, the accompanying Public Works budget estimates for the year 1901-1902, amounting to Rs. 32,80,432 (against Rs. 32,69,725 of the previous year), which will be met from the following sources:—

	Rs.
Provincial Fund	26,35,000
District Funds	3,49,232
Local Funds General	47,200
Irrigation Cess Fund	2,25,000
Palace Fund	24,000

PROVINCIAL FUND.

II. In Dewan's Programme, dated 28th June 1894, the grant under this head was fixed at 25 lakhs, *viz.*, 15 lakhs under "Ordinary" and 10 lakhs, under "Extraordinary," but it has not been found possible to adhere to this Programme during the past few years, either as regards the total grant, or the distribution between ordinary and extraordinary. For 1901-1902, Rs. 11,30,000 have been allotted for ordinary, and Rs. 15,05,000 for extraordinary works, making a total of Rs. 26,35,000, which is the lowest amount at which it will be possible to carry on operations. The increase of grant under "Extraordinary" has been rendered necessary on account of the large important works of this class in hand, such as the re-construction of the Palace at Mysore, the construction of the Marikanave Reservoir in Chitradurg district, the Mavatur tank in Tumkur district and the Victoria Hospital at Bangalore, which have absorbed no less than 10 lakhs. This increase has been made, to some extent, at the expense of the grant under "Ordinary," which has been reduced to what is absolutely required for carrying on only sanctioned works in hand, and a few urgent new ones which cannot conveniently be postponed. Several desirable irrigation projects brought forward by Superintending Engineers had therefore to be postponed.

III. The funds required for the Kauvery Power at Sivasamudram will, as usual, be provided for separately, but a statement has been attached to the budget (*vide* pages 50-51) showing the probable grant of 19 lakhs required for this year, *viz.*, 13 lakhs for English expenditure, and six lakhs for Indian expenditure.

DISTRICT FUNDS.

IV. The grants under this head represent those sanctioned by Government in the General Department for the several districts, for works of this class to be carried out by the Public Works Department. They aggregate Rs. 3,49,232 against Rs. 3,72,525 of the previous year.

LOCAL FUNDS GENERAL.

V. The grant proposed under this head is the same as that of last year, *viz.*, Rs. 47,200, and provides for such District Fund works, for which funds could not be provided in District Fund budgets proper. Moreover, most of these works were formerly sanctioned from Local Funds General.

IRRIGATION CESS FUND.

VI. The total assets under Irrigation Cess proper available for expenditure during 1901-1902, are estimated at Rs. 2,25,000, as intimated by the Comptroller, and this amount has been taken as the grant for this budget. This grant is found to be wholly inadequate to meet requirements, and it will therefore be necessary to devise some means of relieving this fund of some of the larger and more important projects at present debited to it. This matter is now under consideration, and separate proposals will be submitted shortly for the consideration and orders of Government.

PALACE FUND.

VII. Under this head a grant of Rs. 24,000 has been provided with the approval of the Palace authorities. *Vide* details in pages 48—49. The provision made for

roofing Fern Hill Palace at Ooty has been omitted in this budget, but the Private Secretary has written to say that this work should be debited to Provincial Fund.

ESTABLISHMENT.

VIII. The total charges under this head (including the sum of Rs. 36,740 transferable from the Sanitary Works budget, being proportionate charges on account of Government works shown in Part III of that budget), aggregate Rs. 7,48,840. Deducting Rs. 7,305, being five per cent for "Direction and Accounts" chargeable to that budget, the net amount debitable to Public Works proper is Rs. 7,41,535 against Rs. 7,32,135 for 1900-1901, *vide* Part III of budget. This includes also cost of all permanent hands of the general establishment employed temporarily on the Kauvery Power Scheme works, but which was ordered by Government to be debited to Provincial Fund.

The establishment charges work out to 25·2 on grant for works.

TOOLS AND PLANT.

IX. The total amount provided under this head is Rs. 18,735 against Rs. 37,523 of the previous year. This large difference is due to only Rs. 5,000 having been provided for the Marikanave Project for the current year, against Rs. 20,000 for 1900-1901.

No. 457-81—3807-31, DATED BANGALORE, 15TH JULY 1901.

ORDER THEREON—The Public Works budget estimates for the year 1901-1902, submitted with the Note read above, are sanctioned for a grant of Rs. 32,85,432 (as noted in the margin), including an additional allotment of Rs. 5,000 for the Anglo-Vernacular School at Shimoga.

	Rs.
Provincial Fund	26,40,000
District Fund	3,49,232
Local Funds General	47,200
Irrigation Cess Fund	2,25,000
Palace Fund	24,000
	32,85,432

2. The outlay on works connected with the Kauvery Power Scheme, a detailed list of which is attached to this budget, will, as usual, be debited to the Civil budget.

READ—

The following Note by the Officiating Chief Engineer, dated 2nd instant, submitting for sanction, the Sanitary Works Budget estimates for the year 1901-1902:—

I beg to submit, for the sanction of Government, the accompanying Sanitary Works budget for the year 1901-1902, providing for a total expenditure of Rs. 1,69,000, or a net expenditure of Rs. 49,000, excluding Part III works for which provision is made in the Public Works Budget proper. The only important new work brought forward under Part I is improving the water-supply of the Chikmagalur town, a project for which has been submitted to Government in the General Department for sanction and allotment of funds from Local Funds General, from which source the work was previously sanctioned. There are no works under Part II. Under Part III provision is made for completing the roads in the Basavangudi and Malleswaram Extensions of the Bangalore City on projects already sanctioned, also for extending the Vani Vilas road, and improving the water-supply to Dodkere tank at Mysore, the projects for which are under preparation. The only work provided under Part IV is opening out roads and lanes in the congested parts of the Bangalore City, project for which has been submitted to Government in the General Department.

Establishment.—The total charges under the head for the Sanitary Works Circle aggregate Rs. 59,154, of which Rs. 38,989 will be debited to the General Budget and the balance, Rs. 20,165, to the Sanitary Works Budget. A considerable saving will be effected in this establishment, if the separate office of the Sanitary Superintending Engineer is temporarily abolished as contemplated.

No. 482-97—3832-47, DATED BANGALORE, 15TH JULY 1901.

ORDER THEREON—The Sanitary Works budget for 1901-1902 referred to above, is hereby sanctioned by Government for a net amount of Rs. 49,000. Including the allotment of Rs. 1,20,000 assigned for Part III works from the General Public Works Budget, the total grant for the year will be Rs. 1,69,000.

GEOLOGICAL

Proceedings of the Government of Mysore,

READ—

Letter from the District Magistrate, Bangalore District, J. No. 86, dated 11th July 1901, referring to Government Proceedings, Geological, No. 281-90 M.—F. 150, dated 15th February 1901, and requesting to be informed whether, if a person who has been granted a license in Form A or Form B under the Explosives Rules to manufacture, possess and sell or to possess and sell some small quantity of explosives on payment of the prescribed fee of Rs. 2½ or Rs. 5, as the case may be, applies at the same time for a license in Form II under the Arms Rules to manufacture, possess and sell arms, ammunition and military stores, such licenses should be granted free of cost; and remarking further that on every such license so issued, a loss of Rs. 17½ or Rs. 15 accrues to Government.

READ AGAIN—

Government Proceedings No. 281-90 M.—F. 150, dated 15th February 1901, and Government Notification, Geological, No. 291-M., dated 15th February 1901, directing the addition of a proviso to clause 7 of the Rules under the Mysore Arms Regulation, VI of 1890.

No. S. 30-39, DATED BANGALORE, 12TH JULY 1901.

ORDER THEREON—The Government Proceedings read above do not permit of a person who has been granted a license under the Explosives Rules being given *free of cost* a license in Form II or III of the Arms Rules for the manufacture, possession and sale, or for the possession and sale, of arms, ammunition and military stores *in general*, but only for such of these as are *not explosives* (as defined by the Rules under the Explosives Regulation).

2. The object of the Proceedings quoted is to permit of a person who has been granted a license under the Explosives Rules in regard to the manufacture, possession and sale of explosives, being granted a like license under the Arms Rules (Form II or III) in regard to such items of ammunition and military stores as are *not explosives*.

3. The following illustration will make the procedure to be followed in such cases clear :—

A person applies to the District Magistrate for a license to manufacture, possess and sell the following :—

1. Gunpowder—(The amount to be possessed at any one time being 100 lbs. or less).
2. Fireworks—(The amount to be possessed at any one time being 100 lbs. or less).
3. Percussion caps—(Any reasonable number).
4. Gunwads.
5. Lead (shots).
6. Sulphur.

for which the following licenses will be required :—

(A) A license for items 1, 2 and 3 in Form A under the Explosives Rules, for which a fee of Rs. 10 is required.

[Items 1, 2 and 3 being explosives must be licensed under the Explosives Rules, and as their nature and amount come within the limits of Rule 9, a license in Form A may be granted. The amount of the fee is regulated by Rule 10, (2).]

Note:—In accordance with Rule 42 of the Explosives Rules the above license may be endorsed so as to have the effect of a like license under the Arms Regulation.

This merely obviates the necessity for taking out a license under the Arms Regulation for the same items.

(B) A license for items 4, 5 and 6 in Form II under the Arms Rules, for which, in accordance with the Proceedings above quoted, no fee is to be charged.

(It is to be observed that these three items are not explosives—*vide* Explosives Rules—and cannot be included in a license under the Explosives Rules).

Gun-wads are "ammunition" and lead and sulphur are "military stores" according to the Arms Regulation, and they must, therefore, be licensed under that Regulation separately.

4. In reviewing para 6 of the Proceedings read above, it is observed that "arms" have been included amongst the items for which these licenses may be granted free of charge.

This is obviously undesirable and Government are pleased to direct that the words "to arms, or" be omitted from the proviso to Rule 7 of the Rules under the Mysore Arms Regulation, published in Government Proceedings, Geological, No. 281-90 M., dated 15th February 1901, and in Government Notification No. 291 M., dated 15th February 1901.

This modification of the proviso referred to will be published in the *Mysore Gazette* for the information of the public.

W. F. SMEETH,
Secy. to Govt., Geol. Dept.

To—The Chief Inspector of Explosives in Mysore.
The District Magistrate of Bangalore.
The District Magistrates of other Districts.
The Inspector General of Police in Mysore, for information.

READ—

Memo from the Chief Inspector of Explosives with the Government of Mysore, No. 2, dated 12th July 1901, pointing out that licenses for the manufacture, possession and sale of ammunition are still being issued by District Magistrates under the Arms Regulation and Rules; that in the majority of cases the ammunition so licensed is an explosive as defined by the Rules under the Mysore Explosives Regulation and should therefore be licensed under the latter Regulation and Rules.

No. 59-68 (S.), DATED BANGALORE 17TH JULY 1901.

ORDER THEREON—The attention of all District Magistrates is specially directed to the following points regarding the working of the Mysore Arms Regulation and the Mysore Explosives Regulation:—

1. *Ammunition* as defined by the Arms Regulation includes *Explosives*, and licenses for the manufacture, possession and sale of any "ammunition, which is also an *explosive*, must be granted in the forms prescribed by the Explosives Regulation and Rules, and cannot be granted under the Arms Regulation and Rules alone.
2. In order to comply with the provisions of the Arms Regulation and Rules any license granted under the Explosives Regulation may have written upon it that it has the effect of a *like* license under the Arms Regulation (*vide* Rule 42 of Explosives Rules). This does away with the necessity for a *separate* license for the same items under the Arms Regulation.
3. With regard to the licensing of any "ammunition" or "military stores," as defined by the Arms Regulation, which are *not* explosives, and cannot therefore be included in any license granted under the Explosives Regulation, the attention of District Magistrates is directed to the following Government Proceedings and Orders:—

Geological No. 236-45—M.-F. 141, dated 3rd January 1901.
„ No. 281-90—M.-F. 150, dated 15th February 1901.
„ No. 30-39—S., dated 12th July 1901.

4. With regard to the *amount* of explosives, licenses for the manufacture, possession or sale of which may be granted by District Magistrates under Rule 9 of the Explosives Rules, it is to be observed that the amounts which may be possessed by the licensee at *any one time* in the place to which the license applies must not exceed the following :—

200 lbs. of gunpowder ;

500 lbs. of explosives contained in ammunition of the 1st Division of the 6th (ammunition) class ; and

200 lbs. of fireworks.

Should an applicant desire to possess at any one time more than the above stated amounts, the District Magistrate may, at his discretion, either

grant to him two or more licenses each of which will permit the licensee to keep the above amounts in separate and distinct places and each of which places must fulfil the conditions attached to Form A, B or C of the Rules under the Explosives Regulation, or

may direct the applicant to obtained a single license from Government under Rule 18 of the Explosives Rules for the storage of the whole amount which he desires to have in his possession at any one time.
